DETACHMENT — HORUS HERESY (30K)

BASTION OF FIRE

IMPERIAL FISTS (HH, LOYALIST) | WARHAMMER 40,000 | 11TH EDITION

Bastion of Fire is a fully homebrew Detachment for the Imperial Fists (VII Legion) faction — a Horus Heresy-era Loyalist Legion detachment adapted to the Warhammer 40,000 11th-edition Detachment framework, built from the real HH3e Imperial Fists Rite of War data. Formatted to match the No Figure Left Behind Combat Patrol archive.

FACTION ABILITY

FIRE DISCIPLINE
No shot is wasted, and no volley is undisciplined. Each time a unit with this ability shoots, if it makes 6 or more attacks with Bolt weapons as part of that Shooting Attack, add 1 to the Hit roll for those attacks.

DETACHMENT RULE

BASTION OF FIRE
Detachment Points: To use this detachment you must spend 1 DP.

Nothing crosses open ground in front of an Imperial Fists gun line without being seen, and nothing seen goes unanswered. Once per battle, each time an enemy unit ends a Move within 10" of and visible to a friendly Imperial Fists unit (excluding Vehicles) that has not already shot this turn, you can select that Imperial Fists unit: it can immediately shoot at the enemy unit that just moved, as though it were your Shooting phase. If it does, it cannot be selected to shoot again later this turn.

FORCE DISPOSITIONS
This detachment has access to the following Force Disposition: Take and Hold.

DETACHMENT COMPOSITION

Included: All homebrew Imperial Fists (HH) roster units (Rogal Dorn, Evander Garrius, Sigismund, Camba Diaz, Alexis Polux, Fafnir Rann, Ætos Dios, Templar Brethren, Phalanx Warder-Squad, Huscarl Terminator Retinue, Inductii Squad), and any homebrew Legiones Astartes (HH) unit from the generic Space Marines (HH) roster given the Imperial Fists Trait.

Excluded: Any other Legion's Primarch or named characters. Non-Legiones-Astartes allies, per standard HH3e Legion-purity convention.

ENHANCEMENTS

MANTLE OF THE PRAETORIAN — *Character model only*
The bearer has a 4+ invulnerable save. If the bearer already has an invulnerable save, add 1 to its Invulnerable Save characteristic instead (to a maximum of a 3+ invulnerable save).

STANDARD OF THE UNBROKEN LINE — *Character model only*
While the bearer is on the battlefield, each time a friendly Imperial Fists unit within 6" of the bearer takes a Battle-shock test, that test is automatically passed.

SIEGE-MASTER'S AUSPEX — *Character model only*
Each time a friendly Imperial Fists unit within 6" of the bearer shoots a Vehicle or Building unit, that unit's ranged weapons have the [ANTI-VEHICLE 4+] ability.

RELIC OF THE PHALANX — *Character model only*
Each time the bearer fights, that model's melee weapons have the [DEVASTATING WOUNDS] ability.

STRATAGEMS

A WALL UNYIELDING **1CP**
Imperial Fists — Epic Deed Stratagem

When: Fight phase, just before a friendly Imperial Fists Character unit fights.

Target: That unit.

Effect: Until the end of the phase, each time damage is allocated to a model in that unit, that damage is reduced by 1, to a minimum of 1 — but that unit does not have the [FIGHTS FIRST] ability this phase, even if it would otherwise.

HOLD THE LINE **1CP**
Imperial Fists — Battle Tactic Stratagem

When: Your opponent's Charge phase, just after an enemy unit ends a Charge move within Engagement Range of a friendly Imperial Fists unit that Remained Stationary this turn.

Target: That Imperial Fists unit.

Effect: Until the end of the turn, that unit has the Benefit of Cover and its melee weapons have the [SUSTAINED HITS 1] ability.

NO GROUND SURRENDERED **1CP**
Imperial Fists — Battle Tactic Stratagem

When: Your opponent's Shooting phase, just after a friendly Imperial Fists unit is destroyed.

Target: That unit's controlling player.

Effect: Until the end of the battle, once per battle round, when a friendly Imperial Fists unit is set up on the battlefield within your own deployment zone, it can be set up as though it were the start of the battle.

PRECISION FIRE **1CP**
Imperial Fists — Battle Tactic Stratagem

When: Your Shooting phase, just after a friendly Imperial Fists unit is selected to shoot.

Target: That unit.

Effect: Until the end of the phase, ranged weapons equipped by models in that unit have the [PRECISION] ability.

SIEGE DISCIPLINE **2CP**
Imperial Fists — Strategic Ploy Stratagem

When: Your Command phase.

Target: One friendly Imperial Fists unit.

Effect: Until your next Command phase, each time that unit is targeted by an attack made with a weapon that has the [BLAST] ability, subtract 1 from the number of attacks made by that weapon.

TERRAN RESOLVE **2CP**
Imperial Fists — Epic Deed Stratagem

When: Fight phase, just after a friendly Imperial Fists unit destroys the last model in an enemy unit.

Target: That Imperial Fists unit.

Effect: Until the end of the turn, that unit's Objective Control characteristic is doubled.

DESIGNER'S NOTE

Homebrew — HH3e (2026) Imperial Fists Legion Rite of War → 11e conversion. Built from the real HH3e Rite of War data in `Imperial Fists.json`, which has one baseline rite with three named pieces. Legion Tactica "Fire Discipline" is real (the same rule carried individually by several roster characters this session, including Rogal Dorn and Evander Garrius) — a +1 to-hit bonus for massed bolt/auto fire — used as the Faction Ability, translated directly with the real five-or-more-attacks threshold. Gambit "A Wall Unyielding" (real: forgo the Combat Initiative bonus on a Focus Roll in exchange for Eternal Warrior(1) for the Strike Step) became the identically-named Stratagem, translated as a damage-reduction-for-Fights-First trade preserving the real risk/reward shape. Advanced Reaction "Bastion of Fire" (real: once per battle, an Imperial Fists non-Vehicle unit within 10" and Line of Sight of an enemy unit that just moved can immediately shoot it, before the enemy's Movement Phase concludes) was promoted to the Detachment Rule itself, matching how every other Legion's flagship real mechanic has anchored its own detachment — and a fitting flagship for a Legion whose entire identity is disciplined, prepared firepower that punishes anyone careless enough to move into range. Hold the Line, No Ground Surrendered, Precision Fire, Siege Discipline, and Terran Resolve are original stratagems filling out the standard six; Enhancements are original, themed around the Legion's siege-craft, fortification, and unbreakable-defence identity.
