DETACHMENT — HORUS HERESY (30K)

BITTER FURY

IRON WARRIORS (HH, TRAITOR) | WARHAMMER 40,000 | 11TH EDITION

Bitter Fury is a fully homebrew Detachment for the Iron Warriors (IV Legion) faction — a Horus Heresy-era Traitor Legion detachment adapted to the Warhammer 40,000 11th-edition Detachment framework, built from the real HH3e Iron Warriors Rite of War data. Formatted to match the No Figure Left Behind Combat Patrol archive.

FACTION ABILITY

THE BITTER END
A company that has survived every siege it was ever sent to does not break because the enemy wants it to. Each time a friendly Iron Warriors unit takes a Battle-shock test, ignore any modifiers that would worsen that test.

DETACHMENT RULE

BITTER FURY
Detachment Points: To use this detachment you must spend 1 DP.

Every gun in an Iron Warriors company keeps firing for exactly as long as there is a hand left to hold it. Once per battle, after a friendly Iron Warriors unit (excluding Vehicles) is selected as the target of a ranged attack and that attack has been resolved, that unit can shoot as if it were your Shooting phase, using its characteristics as they were before that attack was resolved (including any models destroyed by it). Ranged weapons used this way have the [SUSTAINED HITS 1] ability.

FORCE DISPOSITIONS
This detachment has access to the following Force Disposition: Take and Hold.

DETACHMENT COMPOSITION

Included: All homebrew Iron Warriors (HH) roster units (Perturabo, Warsmith, Nârik Dreygur, The Tormentor, Tyrant Siege Terminator Squad, Iron Circle Maniple, Dominator Cohort, Iron Havocs, Inductii Squad), and any homebrew Legiones Astartes (HH) unit from the generic Space Marines (HH) roster given the Iron Warriors Trait.

Excluded: Any other Legion's Primarch or named characters. Non-Legiones-Astartes allies, per standard HH3e Legion-purity convention.

ENHANCEMENTS

RELIC OF OLYMPIA — *Character model only*
Melee weapons equipped by the bearer have the [ANTI-VEHICLE 4+] ability.

MASTER OF THE FORTIFICATION — *Character model only*
While the bearer is on the battlefield, friendly Iron Warriors units within 6" of the bearer have the Benefit of Cover while they are within your own deployment zone.

UNBROKEN LINE — *Character model only*
The bearer's unit does not need to take a Battle-shock test while the bearer is on the battlefield.

SIEGE-BREAKER'S MARK — *Character model only*
Each time the bearer's unit destroys an enemy Vehicle or Monster, you gain 1 Command Point. This Enhancement can only trigger once per battle.

STRATAGEMS

SPITEFUL DEMISE **1CP**
Iron Warriors — Epic Deed Stratagem
When: Fight phase, just after a friendly Iron Warriors Character model is destroyed.
Target: The enemy model that destroyed it.
Effect: That enemy model's unit suffers 2 mortal wounds.

GRIND THEM DOWN **1CP**
Iron Warriors — Battle Tactic Stratagem

When: Your Shooting phase, just after a friendly Iron Warriors unit is selected to shoot.

Target: That unit.

Effect: Until the end of the phase, each time a model in that unit makes a ranged attack that targets a unit within half range of that weapon, an unmodified Wound roll of 6 inflicts 1 additional mortal wound on the target after all other damage has been resolved.

HOLD THE LINE **1CP**
Iron Warriors — Strategic Ploy Stratagem

When: Your opponent's Charge phase.

Target: One friendly Iron Warriors unit that is within your own deployment zone.

Effect: Until the end of the phase, that unit has a 4+ invulnerable save. If it already has an invulnerable save, use whichever is better.

NO RETREAT **1CP**
Iron Warriors — Battle Tactic Stratagem

When: End of any phase, if a friendly Iron Warriors unit lost one or more models earlier this phase.

Target: That unit.

Effect: That unit automatically passes Battle-shock tests until the end of the battle round.

SIEGE ENGINEERS **2CP**
Iron Warriors — Strategic Ploy Stratagem

When: Your Command phase.

Target: One friendly Iron Warriors Vehicle unit.

Effect: That unit regains up to D3 lost wounds.

THE WALL DOES NOT FALL **2CP**
Iron Warriors — Epic Deed Stratagem

When: Fight phase, just after a friendly Iron Warriors Character model is destroyed, before it is removed from play.

Target: That model.

Effect: If that model has not already fought this phase, it can fight once, using its normal characteristics, before being removed as a casualty.

DESIGNER'S NOTE

Homebrew — HH3e (2026) Iron Warriors Legion Rite of War → 11e conversion. Built from the real HH3e Rite of War data in `Iron Warriors.json`, which has one baseline rite with three named pieces: Legion Tactica "The Bitter End" (real: ignores negative Leadership/Cool modifiers from Panic/Pinning/Stun/Suppressive rules — used here as the army-wide Faction Ability, translated as ignoring all Battle-shock test penalties), Gambit "Spiteful Demise" (real: a Challenge-only automatic hit dealt back on death, translated directly into the Spiteful Demise Stratagem as a mortal-wound payback), and Advanced Reaction "Bitter Fury" (real: a once-per-battle "return fire" reaction that lets a shot-at unit fire back immediately, even using models that were just destroyed by the triggering attack, with a Firepower/Overload bonus) — promoted to the Detachment Rule itself, matching how every other Legion's flagship real mechanic has anchored its own detachment. The real "even models reduced to 0 Wounds" clause was preserved directly (the unit shoots back using its pre-attack characteristics) rather than smoothed into a simpler always-available buff, since it's the single most distinctive part of the real rule. Grind Them Down, Hold the Line, No Retreat, Siege Engineers, and The Wall Does Not Fall are original stratagems filling out the standard six; Enhancements are original, themed around the Legion's siege-warfare and fortification identity.
