DETACHMENT — HORUS HERESY (30K)

SHADOW VEIL

RAVEN GUARD (HH, LOYALIST) | WARHAMMER 40,000 | 11TH EDITION

Shadow Veil is a fully homebrew Detachment for the Raven Guard (XIX Legion) faction — a Horus Heresy-era Loyalist Legion detachment adapted to the Warhammer 40,000 11th-edition Detachment framework, built from the real HH3e Raven Guard Rite of War data. Formatted to match the No Figure Left Behind Combat Patrol archive.

FACTION ABILITY

SHADOW WALKERS
By the time the shot lands, they were never really there. Each time a ranged attack targets a friendly Raven Guard unit from a distance of 18" or greater, subtract 1 from that attack's Hit roll.

DETACHMENT RULE

Detachment Points: To use this detachment you must spend 1 DP.

SHADOW VEIL
Once per battle, when an enemy unit targets a friendly Raven Guard unit (excluding Vehicles) with a ranged attack, before that attack is resolved, you can select that unit: it can make a Normal Move of up to its Movement characteristic, and until the end of the phase, subtract 1 from Hit rolls for attacks that target it. If this movement takes that unit out of range or Line of Sight of every model in the attacking unit, the attacking unit cannot select a new target this phase.

FORCE DISPOSITIONS
This detachment has access to the following Force Disposition: Disruption.

DETACHMENT COMPOSITION

Included: All homebrew Raven Guard (HH) roster units (Corvus Corax, Kaedes Nex, Dark Fury Squad, Deliverers Squad, Mor Deythan Squad, Inductii Squad), and any homebrew Legiones Astartes (HH) unit from the generic Space Marines (HH) roster given the Raven Guard Trait.

Excluded: Any other Legion's Primarch or named characters. Non-Legiones-Astartes allies, per standard HH3e Legion-purity convention.

ENHANCEMENTS

CLOAK OF DELIVERANCE — *Character model only*
The bearer has a 5+ invulnerable save. If the bearer already has an invulnerable save, add 1 to its Invulnerable Save characteristic instead (to a maximum of a 3+ invulnerable save).

RELIC OF DELIVERANCE — *Character model only*
Each time the bearer fights, that model's melee weapons have the [DEVASTATING WOUNDS] ability.

STANDARD OF THE SHATTERED LEGION — *Character model only*
While the bearer is leading a unit, each time a model in that unit is destroyed, roll one D6: on a 6, that model is not destroyed and instead is returned to the unit with 1 wound remaining.

UNSEEN STRIKE — *Character model only*
Each time the bearer's unit takes a Battle-shock test, that test is automatically passed.

STRATAGEMS

DECAPITATION STRIKE **1CP**
Raven Guard — Battle Tactic Stratagem
When: Fight phase, just before a friendly Raven Guard Character model fights.
Target: That model.
Effect: That model makes a single melee attack first, resolved before its other attacks. If that attack scores a wound, this model can then make its remaining attacks as normal. If it does not, this model makes no further attacks this phase.

FORGE ANEW **1CP**
Raven Guard — Strategic Ploy Stratagem
When: Your Command phase.
Target: One friendly Raven Guard unit.
Effect: Until your next Command phase, that unit is not Battle-shocked while it is below its Starting Strength.

GHOSTS IN THE DARK **1CP**
Raven Guard — Battle Tactic Stratagem
When: Your Movement phase, just before a friendly Raven Guard unit is selected to move.
Target: That unit.
Effect: Until the end of the phase, that unit can move across models and terrain features as if they were not there.

MERCILESS RETALIATION **1CP**
Raven Guard — Epic Deed Stratagem
When: Fight phase, just after a friendly Raven Guard unit is destroyed.
Target: The enemy unit that destroyed it.
Effect: That enemy unit suffers 3 mortal wounds.

STRIKE FROM SHADOW **2CP**
Raven Guard — Strategic Ploy Stratagem
When: Your Charge phase.
Target: One friendly Raven Guard unit that made a Charge move this phase.
Effect: Until the end of the turn, that unit's melee weapons have the [LETHAL HITS] ability.

SALVAGE THE FALLEN **2CP**
Raven Guard — Battle Tactic Stratagem
When: Your Shooting phase, just after a friendly Raven Guard Vehicle unit is selected to shoot.
Target: That unit.
Effect: Until the end of the phase, ranged weapons equipped by models in that unit have the [SUSTAINED HITS 1] ability.

DESIGNER'S NOTE

Homebrew — HH3e (2026) Raven Guard Legion Rite of War → 11e conversion. Built from the real HH3e Rite of War data in `Raven Guard.json`, which has one baseline rite with three named pieces. Legion Tactica "Shadow Walkers" is real (Raven Guard units targeted from 18" or more are shot at as Snap Shots) → Faction Ability, translated as a flat Hit-roll penalty for long-range attacks, the closest 11e analogue to a forced-Snap-Shot rule. Gambit "Decapitation Strike" (real: a single attack made first — if it hits and wounds, the rest of the attacks follow; if not, no further attacks that Strike Step) became the identically-named Stratagem, translated directly, preserving the real all-or-nothing structure. Advanced Reaction "Shadow Veil" (real: once per battle, a pure-Raven-Guard non-Vehicle unit targeted by a Shooting Attack can move up to its Initiative characteristic and gain Shrouded(5+) for the rest of the phase, potentially denying the attack outright if it moves out of range or Line of Sight) was promoted to the Detachment Rule itself, matching how every other Legion's flagship real mechanic has anchored its own detachment — and a fitting flagship for a Legion whose entire doctrine is being gone before the shot ever lands. Forge Anew, Ghosts in the Dark, Merciless Retaliation, Strike from Shadow, and Salvage the Fallen are original stratagems filling out the standard six; Enhancements are original, themed around the Legion's evasive, unseen, and vengeful identity.
