DETACHMENT — HORUS HERESY (30K)

CHASING THE WIND

WHITE SCARS (HH, LOYALIST) | WARHAMMER 40,000 | 11TH EDITION

Chasing the Wind is a fully homebrew Detachment for the White Scars (V Legion) faction — a Horus Heresy-era Loyalist Legion detachment adapted to the Warhammer 40,000 11th-edition Detachment framework, built from the real HH3e White Scars Rite of War data. Formatted to match the No Figure Left Behind Combat Patrol archive.

FACTION ABILITY

SWIFT OF ACTION

No enemy plans for a Legion that can simply choose to be somewhere else, faster than the plan accounted for. Each time a friendly White Scars unit is selected to move in the Movement phase, you can add 2" to its Move characteristic for that move.

DETACHMENT RULE

CHASING THE WIND

Detachment Points: To use this detachment you must spend 1 DP.

The White Scars do not wait to see where the enemy goes — they are already moving to meet them there. Each time an enemy unit ends a Normal, Advance, or Fall Back move within 12" and visible to a friendly White Scars unit that has not moved this phase, that White Scars unit can immediately make a Normal Move of up to its Movement characteristic. A unit that moves this way cannot declare a charge later this turn.

FORCE DISPOSITIONS

This detachment has access to the following Force Disposition: Purge the Foe.

DETACHMENT COMPOSITION

Included: All homebrew White Scars (HH) roster units (Jaghatai Khan, Qin Xa, Hibou Khan, Stormseer, Golden Keshig, Ebon Keshig, Kyzagan Assault Speeder, Falcon's Claws, Dark Sons of Death, Inductii Squad), and any homebrew Legiones Astartes (HH) unit from the generic Space Marines (HH) roster given the White Scars Trait.

Excluded: Any other Legion's Primarch or named characters. Non-Legiones-Astartes allies, per standard HH3e Legion-purity convention.

ENHANCEMENTS

MASTER HORSEMAN — *Character model only*

Each time the bearer's unit is selected to Advance or declares a charge, add 3" to the Advance or Charge roll.

RELIC OF CHOGORIS — *Character model only*

Melee weapons equipped by the bearer have the [LETHAL HITS] ability.

WARDEN OF THE STEPPE — *Character model only*

Each time an attack targets the bearer's unit, if that unit is more than 6" from your Warlord, worsen the Hit roll for that attack by 1.

BANNER OF THE HUNT — *Character model only*

While the bearer is on the battlefield, friendly White Scars units within 6" of the bearer have the [SCOUTS 6"] ability.

STRATAGEMS

PATH OF THE WARRIOR **1CP**
White Scars — Battle Tactic Stratagem

When: Fight phase, when a friendly White Scars unit is chosen to fight.

Target: That unit.

Effect: Until the end of the phase, each time a model in that unit makes an attack, you can re-roll the Hit roll.

HIT AND AWAY **1CP**
White Scars — Strategic Ploy Stratagem

When: Fight phase, just after a friendly White Scars unit fights.

Target: That unit.

Effect: That unit can immediately make a Normal Move of up to 3", even though it is within Engagement Range of one or more enemy units. Each time that unit's Move takes it out of Engagement Range of all enemy units, it does not count as having Fallen Back this turn.

CIRCLING THE PREY **1CP**
White Scars — Battle Tactic Stratagem

When: Your Shooting phase, just after a friendly White Scars unit is selected to shoot.

Target: That unit.

Effect: Until the end of the phase, ranged attacks made by that unit do not suffer the penalty to their Hit roll for the target having the Benefit of Cover.

THE HUNT NEVER ENDS **1CP**
White Scars — Epic Deed Stratagem

When: Fight phase, just after a friendly White Scars Character model is destroyed, before it is removed from play.

Target: That model.

Effect: If that model has not already fought this phase, it can fight once, using its normal characteristics, before being removed as a casualty.

SCATTER TO THE WIND **2CP**
White Scars — Strategic Ploy Stratagem

When: Your opponent's Shooting phase, just after a friendly White Scars unit is selected as the target of a ranged attack.

Target: That unit.

Effect: Until the end of the phase, that attack's Armour Penetration characteristic is improved by 1 (to a minimum of 0), making it less effective against this unit's saves.

FALL UPON THEM **2CP**
White Scars — Battle Tactic Stratagem

When: Your Charge phase.

Target: One friendly White Scars unit that made a Charge move this phase.

Effect: Until the end of the phase, that unit's melee weapons have the [DEVASTATING WOUNDS] ability.

DESIGNER'S NOTE

Homebrew — HH3e (2026) White Scars Legion Rite of War → 11e conversion. Built from the real HH3e Rite of War data in `White Scars.json`, which has one baseline rite with three named pieces: Legion Tactica "Swift of Action" (real: a Controlling-Player-chosen +2 Movement bonus at the start of any turn — used here as the army-wide Faction Ability, translated directly since the real rule already reads cleanly as a per-move choice), Gambit "The Path of the Warrior" (real: a Challenge-only predict-then-reroll mechanic, "Strike Low" or "Strike High" against the next Focus Roll — translated into the Path of the Warrior Stratagem as a straightforward Hit-roll re-roll, preserving the "bet on your own skill and it pays off" fantasy without porting HH3e's Focus Roll sub-system), and Advanced Reaction "Chasing the Wind" (real: a Reaction-Point-costed extra Movement-phase move triggered whenever an enemy unit ends a move near a White Scars unit) — promoted to the Detachment Rule itself, matching how every other Legion's flagship real mechanic has anchored its own detachment, and a fitting flagship for the fastest Legion in this project (Jaghatai Khan's real 440pts and the Golden Keshig's real M16 both independently confirm the same identity). Hit and Away, Circling the Prey, The Hunt Never Ends, Scatter to the Wind, and Fall Upon Them are original stratagems filling out the standard six (The Hunt Never Ends mirrors the "fight from beyond death" Epic Deed pattern already established for other Legions); Enhancements are original, themed around the Legion's speed, plains-hunter, and horse-warrior identity.
