ABILITIES

Big Gunz

Place two Grot Crew tokens next to each Big Gun model when this unit is first set up, removing one each time its Big Gun model loses a wound (a Big Gun model itself is considered to represent its final wound).

Splat!

Each time a model in this unit makes a ranged attack that targets a unit containing 10 or more models, re-roll a Hit roll of 1.

Faction — Waaagh!

Friendly Orks with this ability can re-roll advance rolls, and can become riled up (see Army Rule).

Designer's Note — Legendary Proxy

Big Gunz was removed from BSData entirely in the Sept 2026 Ork codex refresh (Orks.json rev 2→3). GW's own Legendary Proxies list assigns it to count as Mek Gunz. This card takes the current Mek Gunz chassis and its exact 3 of 4 current gun-crew loadouts (Kustom Mega-kannon, Bubblechukka, Traktor Kannon, here labelled Kannon/Lobba/Zzap gun to match the original unit's own weapon names), keeping the historical Splat! ability verbatim. Revert to a real datasheet if GW reinstates one.
