Designer's Note — Legendary Proxy

Big Mek with Kustom Force Field was a 10e Legends datasheet on a light-infantry chassis, removed from BSData entirely in the Sept 2026 Ork codex refresh. GW's own Legendary Proxies list assigns it to count as Big Mek in Mega Armour equipped with Kustom Force Field — a heavier chassis than the original. This card uses that Mega Armour statline and Power Klaw, current BSData's Kustom Force Field text, and restores two things BSData didn't carry into that combination: the historical More Dakka ability, and the original unit's full 5-unit Leader list (current Big Mek in Mega Armour alone only attaches to Meganobz/Mek Gunz) — that wider support-attachment role was this unit's whole niche. Points are a designer estimate (no exact current combined cost found in BSData for this specific loadout). Revert to a real datasheet if GW reinstates one.
