ABILITIES

Core

Deadly Demise D6

Mobile Arsenal

In your Shooting phase, this unit's ranged attacks can re-roll hit rolls of 1.

Rolling Fortress

Each time a ranged attack is allocated to an Orks model from your army, if that model is not fully visible to every model in the attacking unit because of this Deff Rolla Battle Fortress model, that model has the benefit of cover against that attack.

Faction — Waaagh!

Friendly Orks with this ability can re-roll advance rolls, and can become riled up (see Army Rule).

Designer's Note

Deff Rolla Battle Fortress was a 10e Legends datasheet dropped entirely from BSData in the Sept 2026 Ork codex refresh, with no official GW Legendary Proxy given. Anchored to the current Gunwagon chassis and its Mobile Arsenal ability (the closest current Transport vehicle, same as Kill Krusha in this batch), dropping the ranged gun in favor of keeping the unit's own signature Deff Rolla melee weapon and Rolling Fortress cover-granting ability verbatim, plus its historical Titanic keyword to preserve its outsized battlefield presence.
