## ABILITIES

### Core

Deadly Demise D6+2

### Mobile Arsenal

In your Shooting phase, this unit's ranged attacks can re-roll hit rolls of 1.

### Da Biggest Booms

In your Shooting phase, just after selecting a target for this model's Krusha Kannon, the target unit and every other enemy Infantry unit within 3" of that unit must take a Battle-shock test.

### Faction — Waaagh!

Friendly Orks with this ability can re-roll advance rolls, and can become riled up (see Army Rule).

### Designer's Note

Kill Krusha was a 10e Legends datasheet dropped entirely from BSData in the Sept 2026 Ork codex refresh, with no official GW Legendary Proxy given. No current Ork chassis matches its tracked-super-heavy-transport role exactly; anchored here to Gunwagon's stats/transport capacity and Mobile Arsenal ability (the closest current Transport vehicle), while keeping Kill Krusha's own signature Krusha Kannon (dual tankhamma-shell/blast-burna profile) and Da Biggest Booms ability, and its historical Titanic keyword to preserve its outsized battlefield presence.
