ABILITIES

Core

Deadly Demise 1

Rivetin' Dakka

In your Shooting phase, after this model has shot, select one enemy unit hit by one or more of those attacks made with a rivet kannon. Until the start of your next turn, that enemy unit is suppressed. While a unit is suppressed, each time a model in that unit makes a ranged attack, subtract 1 from the Hit roll.

Faction — Waaagh!

Friendly Orks with this ability can re-roll advance rolls, and can become riled up (see Army Rule).

Designer's Note — Legendary Proxy

Kustom Boosta-blasta was removed from BSData entirely in the Sept 2026 Ork codex refresh (Orks.json rev 2→3). GW's own Legendary Proxies list assigns it to count as Warbuggies. This card is that Warbuggies chassis (identical stats, and its exact current Rivet Kannon + Extra Dakka + Spiked Ram loadout) re-skinned under the model's original weapon names, keeping its signature Rivetin' Dakka ability intact. Revert to a real datasheet if GW reinstates one.
