ABILITIES

Gargantuan

Each time this model makes a Normal, Advance or Fall Back move, it can move over models (excluding Titanic models) and terrain features that are 4" or less in height as if they were not there.

Walking Bastion

This model does not suffer the penalty to its Hit rolls for making ranged attacks while enemy units are within Engagement Range of it.

Trample

Each time this model is selected to fight, you can select one enemy unit within Engagement Range of it and roll one D6, adding 2 to the result if this model made a Charge move this turn: on a 4-5, that enemy unit suffers D3 mortal wounds; on a 6+, that enemy unit suffers 3 mortal wounds.

Faction — Waaagh!

Friendly Orks with this ability can re-roll advance rolls, and can become riled up (see Army Rule).

Designer's Note — Legendary Proxy

Squiggoth was a 10e Legends datasheet removed from BSData entirely in the Sept 2026 Ork codex refresh. GW's own Legendary Proxies list assigns it to count as Gargantuan Squiggoth — a significantly bigger, Titanic-scale current unit (500pts vs. the original's 150pts), not a like-for-like size match. That's GW's own call, not a homebrew inflation: this card uses the Gargantuan Squiggoth's current full stat line and transport rules as-is, adding back the original Squiggoth's Trample charge-mortal-wounds ability since current abilities (Gargantuan, Walking Bastion) don't overlap with it. Flagged here because the price jump is the largest of any unit in this Legendary Proxy batch. Revert to a real datasheet if GW reinstates one.
