Deadly Demise D3, Feel No Pain 6+

Unstable Energies

This model has a psyker level of 1. Each battle round, it can use psychic abilities whose total psychic level does not exceed 1 — pick one of the two below.

Roar of Mork (Psychic Ability, level 1)

In your Movement phase, if this unit is not battle-shocked, you can make a psychic roll for this unit by rolling one D6. If you do: on a 1, this unit is battle-shocked; otherwise, select one enemy unit (excluding Monster/Vehicle units) within 12" of this unit — that enemy unit makes a battle-shock roll, with -1 to that roll for every 10 models in this unit.

Warpath (Psychic Ability, level 1)

In the Fight phase, when this unit is selected to fight, if this unit is not battle-shocked, you can make a psychic roll for this unit by rolling one D6. If you do: on a 1, this unit is battle-shocked; otherwise, this unit's melee attacks can re-roll wound rolls of 1 and have [PSYCHIC].

Unstable Oracle

While this model is leading a unit, add 2 to the Attacks characteristic of this model's Eyez of Mork weapon for every 5 models in that unit (rounding down), but while that unit contains 10 or more models, that weapon has the [HAZARDOUS] ability.

Leader

This model can be attached to the following unit: Beast Snagga Boyz.

Faction — Waaagh!

Friendly Orks with this ability can re-roll advance rolls, and can become riled up (see Army Rule).

Designer's Note — Legendary Proxy

Wurrboy was removed from BSData entirely in the Sept 2026 Ork codex refresh (Orks.json rev 2→3). GW's own Legendary Proxies list assigns it to count as Weirdboy — and current BSData already keeps a hidden “Wurrband” sub-configuration on Weirdboy with a psychic ability still literally named Roar of Mork, gated behind a Wurrband upgrade selection. This card takes that configuration directly (stats, Roar of Mork power text, Deadly Demise D3, Unstable Energies) and restores Wurrboy's original signature traits BSData didn't carry over into the base Weirdboy: Feel No Pain

6+, the Eyez of Mork weapon with its Unstable Oracle scaling, and the narrower Leader restriction to Beast Snagga Boyz only. Revert to a real datasheet if GW reinstates one.
