

LIAS ISSODON

CHAPTER MASTER OF THE RAPTORS

ADEPTUS ASTARTES • RAPTORS • IMPERIUM

Malice is Issodon's master-wrought stalker bolt rifle — its bolts pass through fortifications and cover as if they were not there. The Raptors call it "the rifle that ends arguments."

Designer's Note. Lias Issodon is the spectral Chapter Master of the Raptors, a Phobos-pattern Astartes who has not been seen in person by his own Chapter brothers in over a century — he commands from the shadows. Stats anchor on a Phobos-pattern Chapter Master profile — lighter T4 instead of the Terminator-tier T6, with M7 reflecting his stealth armour. Malice preserves its 8e profile (Ignores Cover, special bolt rifle) with Precision added — it can pick out characters in a screen. Master of Ambush plus Lone Operative plus Stealth gives him the "ghost commander" archetype the lore demands. **11th-edition verification, 2026-08-30:** checked current 11e BSData directly — no match for "Issodon" anywhere; still genuinely unsupported. No stat corrections possible; kept as-is from the prior 10e conversion pass.
