IN RUNIC TERMINATOR ARMOUR

ADEPTUS ASTARTES • SPACE WOLVES • IMPERIUM

Njal Stormcaller, the greatest Rune Priest of the Space Wolves, sealed in his ancient suit of Runic Terminator Armour — a mark he wore for centuries before the Rubicon Primaris.

Leader

This model can be attached to one of the following units: Blood Claws, Grey Hunters, Wolf Guard Headtakers.

Wind Walker [PSYCHIC]

While this model is leading a unit, ranged weapons equipped by models in that unit have the [ASSAULT] ability and each time that unit advances, do not make an Advance roll. Instead, until the end of the phase, add 6" to the Move characteristic of models in this unit.

Tempest's Wrath [PSYCHIC]

In your Shooting phase, after this model's unit has shot, select one enemy unit (excluding Monsters and Vehicles) hit by one or more of those attacks made with this model's Living Lightning weapon. Until the start of your next turn, that enemy is stormwracked. While a unit is stormwracked, subtract 6" from the Range characteristic of ranged weapons equipped by models in that unit (to a minimum of 12").

UNIT COMPOSITION

Designer's Note. Rebuilt 2026-08-30 to use the real current Njal Stormcaller's own datasheet (Wind Walker, Tempest's Wrath, Living Lightning, Staff of the Stormcaller — all rules text taken verbatim from the current 11e

BSData profile, id bd47-a00a-e70-abd6) rather than an invented separate ability set, per user direction: "take the normal Njal and take what terminator armour gives you." Stat and weapon deltas are taken from the real generic "Librarian in Terminator Armour" HQ slot (M5"/T5/Sv2+/W5/4++ vs. the real Njal's M7"/T4/Sv3+/W4/4++, and Storm bolter as the sidearm) — same armour-driven adjustment, applied to Njal's own named kit instead of a generic Librarian's. Points held at 75, matching both the real Njal and the real generic Terminator Librarian slot (current-edition pricing shows no cost delta between power armour and Terminator armour for this role). Companion card "Njal Stormcaller in Power Armour" was retired this same session — its old invented loadout duplicated what the real current Njal already does under his own name, so no homebrew was needed there at all.
