

DEATH GUARD

GRIM ENDURANCE

LEGIONES ASTARTES (HH) • XIV LEGION • TRAITOR

"Barbarus does not forgive. It does not relent, and it does not care whether you are still breathing when it finishes teaching its lesson. We learned to keep marching before we learned anything else." — attributed to Mortarion, Remembrancer transcript, Great Crusade era. The Death Guard do not out-fight an enemy. They simply keep coming after everyone else has stopped.

FACTION ABILITY — REMORSELESS ADVANCE

A Death Guard company does not need to choose between moving and shooting straight. It has never needed to.

Each time a model in a friendly **Death Guard** unit makes a ranged attack with a weapon that has the [HEAVY] ability, that attack still gains the benefit of [HEAVY] even if the unit made a Normal Move this turn (instead of only if it Remained Stationary).

DETACHMENT RULE — GRIM ENDURANCE

GRIM ENDURANCE

Something in Barbaran flesh simply refuses to stop working, long after any reasonable body would have given out.

Friendly **Death Guard Infantry** units have the [FEEL NO PAIN 6+] ability.

DETACHMENT COMPOSITION

✓ **Included:** All homebrew **Death Guard (HH)** roster units (Mortarion, Calas Typhon, Deathshroud Terminator Squad, Grave Warden Terminator Squad, Mortus Poisoner Squad), and any homebrew **Legiones Astartes (HH)** unit from the generic Space Marines (HH) roster given the Death Guard Trait. **Nathaniel Garro** may be included with either the Death Guard or Knights Errant keyword.

✗ **Excluded:** Any other Legion's Primarch or named characters. Non-Legiones-Astartes allies, per standard HH3e Legion-purity convention.

ENHANCEMENTS

BARBARAN HIDE 15 PTS

Skin toughened by a world that tried to kill everything born on it.

The bearer has the [FEEL NO PAIN 5+] ability (instead of the detachment's 6+).

CHEM-TREATED WARGEAR 15 PTS

Every blade and barrel in the bearer's kit has been soaked in something the Apothecarion would rather not name.

Ranged and melee weapons equipped by the bearer have the [LETHAL HITS] ability.

UNBREAKABLE MARCH 20 PTS

Some soldiers stop when they're told to fall back. The bearer never learned how.

The bearer's unit cannot be selected to Fall Back, and ignores modifiers to its Movement characteristic. In addition, the bearer's unit automatically passes Battle-shock tests.

THE LONG PATIENCE 25 PTS

The bearer has waited out worse than this. The bearer can wait out you too.

Once per battle, at the start of any phase, the bearer's unit regains up to D3+3 lost wounds, or one destroyed model is returned to the unit with 1 wound remaining.

STRATAGEMS

BARBARAN ENDURANCE 2 CP

Death Guard — Strategic Ploy Stratagem

The lesson lands. The Legionary keeps standing anyway.

WHEN: Your opponent's Shooting phase, just after they select a friendly **Death Guard Infantry** unit (that is not a Vehicle) as the target of a ranged attack.

TARGET: That unit.

EFFECT: Remove that unit from Battle-shock if it is currently under that effect. Until the end of the phase, that unit has the [FEEL NO PAIN 5+] ability (instead of the detachment's 6+) and automatically passes Battle-shock tests. Use this Stratagem only once per battle.

TOUGHENED BY THE MARCH 1 CP

Death Guard — Battle Tactic Stratagem

Whatever the enemy is bringing, the Legion has already marched through worse.

WHEN: Fight phase, just before a friendly **Death Guard** unit is selected to fight.

TARGET: That unit.

EFFECT: Until the end of the phase, add 2 to the Toughness characteristic of models in that unit.

CHEMICAL PAYLOAD 1 CP

Death Guard — Battle Tactic Stratagem

Whatever survives the shrapnel does not survive what's riding on it.

WHEN: Your Shooting phase, just after a friendly **Death Guard** unit is selected to shoot.

TARGET: That unit.

EFFECT: Until the end of the phase, each time a model in that unit makes a ranged attack, an unmodified Wound roll of 3+ always scores a wound, regardless of the target's Toughness characteristic.

GRAVE DISCIPLINE 1 CP

Death Guard — Strategic Ploy Stratagem

The Legion mourns quickly, then keeps its position.

WHEN: End of any phase, if a friendly **Death Guard** unit lost one or more models earlier this phase.

TARGET: That unit.

EFFECT: That unit automatically passes Battle-shock tests until the end of the battle round.

THE LONG MARCH 1 CP

Death Guard — Strategic Ploy Stratagem

No ground has ever slowed this Legion down for long.

WHEN: Your Movement phase, just before a friendly **Death Guard** unit moves.

TARGET: That unit.

EFFECT: Until the end of the phase, that unit is treated as not moving through Difficult Terrain for any purpose.

NO BODY LEFT BEHIND 2 CP

Death Guard — Epic Deed Stratagem

The Legion does not leave its dead for the enemy to gloat over.

WHEN: Fight phase, just after a friendly **Death Guard Character** model is destroyed, before it is removed from play.

TARGET: That model.

EFFECT: If that model has not already fought this phase, it can fight once, using its normal characteristics, before being removed as a casualty.

DESIGNER'S NOTE

Homebrew — HH3e (2026) Death Guard Legion Rite of War → 11e conversion. Built from the real HH3e *Rite of War* data in `Death Guard.json`. Unlike World Eaters (which had a baseline rite plus a Traitor-locked variant), Death Guard only has one real rite — **Legiones Astartes Death Guard** — with three named pieces: Legion Tactical "Remorseless Advance" (move-and-still-fire-Heavy, real and directly portable, used here as the Faction Ability), a Gambit (a Challenge-only Toughness-swap effect, translated here as Toughened by the March since the real Duel-vs-WS math doesn't have a clean 11e equivalent), and Advanced Reaction "Barbaran Endurance" (a reactive Feel No Pain + Battle-shock-immunity burst, translated directly into a Stratagem). Since the real data doesn't promote any one piece into a full army-wide Detachment Rule the way World Eaters' "Lost to the Nails" was already structured, **Grim Endurance** (a baseline Feel No Pain 6+ for all Death Guard Infantry) was built as an original centerpiece capturing the Legion's core "keeps marching, keeps standing" identity, with the real Barbaran Endurance kept as its own stronger, situational Stratagem rather than folded in and diluted. Chemical Payload, Grave Discipline, and The Long March are original stratagems filling out the standard six; Enhancements are original, themed around endurance and chemical/toxin flavour (pre-Nurgle, matching the Mortus Poisoner Squad's own real chemical-warfare fluff) rather than pulled from a specific real relic list.
