HOMEBREW — 8TH ED SOURCE

KNIGHT COMMANDER PASK

+45
POINTS (UPGRADE)

TANK ACE OF THE CADIAN 423RD

ASTRA MILITARUM • CADIAN • IMPERIUM

*Knight Commander Antaro Pask is the Astra Militarum's most decorated tank commander, having served with the Cadian 423rd Armoured aboard Hand of Steel. Stats marked * below — Pask uses the host Leman Russ's own profile; he is not a separate model.*

HOST VEHICLE

Embedded Commander

Knight Commander Pask is not a separate model. Any Leman Russ in your army (Battle Tank, Demolisher, Eradicator, Executioner, Exterminator, Punisher, Vanquisher or Commander) can take him as a +45 point upgrade, 0-1 per army. That model gains the CHARACTER, EPIC HERO and KNIGHT COMMANDER PASK keywords and uses its own datasheet for stats and weapons; the abilities below are added to it.

ABILITIES (GRANTED TO HOST LEMAN RUSS)

Tank Ace

Improve the Ballistic Skill characteristic of ranged weapons equipped by this model by 1 (to a maximum of 2+). In addition, each time this model is selected to shoot, you can re-roll one Wound roll.

While this model has its full number of wounds, it has the Feel No Pain 6+ ability against ranged attacks. While it is Below Half-strength, it has the Lone Operative ability.

Master of All Variants

Ranged weapons equipped by this model whose names include battle cannon, demolisher cannon, plasma cannon, autocannon, vanquisher cannon, gatling cannon or nova cannon have the [SUSTAINED HITS 1] ability.

Coordinated Strike (Aura)

While a friendly Leman Russ unit is within 12" of this model, that unit is eligible to shoot in a turn in which it Advanced.

Keywords (granted to host Leman Russ in addition to its own): CHARACTER, EPIC HERO, OFFICER, TANK COMMANDER, CADIAN, IMPERIUM, ASTRA MILITARUM, KNIGHT COMMANDER PASK

Designer's Note. The 8th Ed datasheet was a full Leman Russ profile with Pask grafted in (BS3+ on all variants, Knight Commander order ability). The 9th Ed treatment was an upgrade character that you "added" to a Leman Russ. This homebrew preserves the 9th Ed model: a +45 pts upgrade that gives any Leman Russ in your army Pask's BS bonus, re-roll, Sustained Hits, and Coordinated Strike aura. Use this card alongside any Leman Russ datasheet from the current 11e codex. **11th-edition verification, 2026-08-30:** checked current 11e BSData directly — no match for "Pask" or "Tank Commander" anywhere; the Tank Commander upgrade concept itself no longer exists in the current codex. Consistent with the Astra Militarum fully-gone findings from this project's Excel triage. No stat corrections possible; kept as-is from the prior 9e-based conversion pass. 11th-edition rules pass, 2026-10-10: matched to the New Recruit NFLB data — available on all eight current Leman Russ variants including the Leman Russ Commander, ability wording updated to 11e.
