ABILITIES

Way of the Short Blade

While this model is leading a unit, each time a model in that unit makes an attack that targets an enemy unit within 9", add 1 to the Wound roll.

Puretide's Teachings

Once per battle round, one unit from your army with this ability can use it when its unit is targeted with a Stratagem. If it does, reduce the CP cost of that use of that Stratagem by 1CP.

Designer's Note. Farsight is the centrepiece of the Eight and the only member of the group with a real current Warhammer 40,000 datasheet. **11th-edition conversion, 2026-08-19: rebuilt to match current BSData** — the prior 9th-Ed-sourced homebrew card had drifted substantially (W7 vs the real 8; a single bespoke Dawn Blade profile with [DEVASTATING WOUNDS]/[ANTI-VEHICLE 4+] vs the real two-profile Strike/Sweep choice; a homebrew "Way of the Short Blade" melee-buff-on-Charge vs the real Leader wound-aura ability of the same name; a homebrew "Master Tactician" flat-CP-gain vs the real "Puretide's Teachings" per-round Stratagem discount). All corrected to match current official Farsight. **"Master of the Eight" is retained as an added homebrew-only aura** layered on top of his real kit — it has no official equivalent and is the mechanic that makes The Eight function as a bonded formation; it does not conflict with any of his real abilities. Points cost (155) kept as previously set — not independently re-derived from current official pricing this pass.
