

MOGUL KAMIR

KHAN OF THE ATTILAN STEPPES

ASTRA MILITARUM • ATTILAN • IMPERIUM

Mogul Kamir leads his Rough Riders from the front, hunting lance lowered, screaming his clan's war-cry. The lance shatters on impact — but by then the foe is already broken.

ABILITIES

"Like Lightning!" Order

Once per turn, in your Charge phase, you can issue the Like Lightning! Order to a friendly Astra Militarum Mounted unit within 6" of this model. Until the end of the phase, that unit can re-roll the Charge roll, and each model's melee weapons gain +1 to the Wound roll on the first attack each combat.

Heroic Charge

Each time this model's unit finishes a Charge move, until the end of the turn, melee weapons equipped by models in that unit have the [LANCE] and [DEVASTATING WOUNDS] abilities. After resolving the charge, replace this model's Attilan Hunting Lance profile with the Power Sabre profile for the rest of the battle (the lance is consumed in the charge).

Honourable Death

If this model would be destroyed during the Fight phase, before being removed from the battlefield it can make one final melee attack with the Power Sabre or Attilan Hunting Lance (if not yet expended).

Designer's Note. Mogul Kamir was Attila's "Like Lightning!" Order character in 5th-7th Edition Codex: Imperial Guard. His three signature traits are preserved here: a hunting lance with a bonus on the charge that's consumed

afterward, an Order granting nearby Mounted units re-rolled charges and bonus attacks, and a death-fight ability letting him strike one last time. Fully bespoke — no current BSData equivalent exists for a named Attilan character.

11th-edition conversion, 2026-08-23: updated the Leader join-list. The original 10e-era card only let him join Death Riders of Krieg, since at the time it was written that was the only mounted Astra Militarum unit confirmed current in BSData. Both Attilan Rough Riders and the homebrew Imperial Guard Rough Riders are now confirmed valid join targets — Death Riders dropped from the list on purpose, keeping Kamir's own identity distinctly Attilan (an aggressive charge-cavalry khan) rather than drifting toward Death Riders' current defensive "Screening Line" flavour. **Checked against real Lord Marshal Dreir (75pts, the current official Death Riders Leader character) as a power-level reference** — Dreir outranks Kamir (Lord Marshal vs. Captain-equivalent), so this was inspiration, not a target to match exactly. One real design improvement adopted: Dreir's charge ability buffs his whole led unit, not just himself, so Heroic Charge now does the same (previously personal-only). Stats and points (80) otherwise kept unchanged — Kamir already compares reasonably to Dreir (W5 vs Dreir's W6, no invulnerable save vs Dreir's 4+, but a stronger personal lance and pistol options Dreir lacks).
