DETACHMENT — HORUS HERESY (30K)

VENGEANCE OF THE FIRST LEGION

DARK ANGELS (HH, LOYALIST) | WARHAMMER 40,000 | 11TH EDITION

Vengeance of the First Legion is a fully homebrew Detachment for the Dark Angels (Ist Legion) faction — a Horus Heresy-era Loyalist Legion detachment adapted to the Warhammer 40,000 11th-edition Detachment framework, built from the real HH3e Dark Angels Rite of War data. Formatted to match the No Figure Left Behind Combat Patrol archive.

FACTION ABILITY

THE ANGEL OF DEATH

Friendly Dark Angels units cannot have their Leadership characteristic modified to be worse than 6+. Each time an ability would inflict a penalty on a friendly Dark Angels unit's Leadership characteristic, that penalty is capped at -1, regardless of the ability's own stated value.

DETACHMENT RULE

VENGEANCE OF THE FIRST LEGION

Detachment Points: To use this detachment you must spend 1 DP.

The Order does not settle for the first outcome of a fight if the first outcome was not the right one.

• Once per battle, at the end of the Fight phase, you can select one friendly Dark Angels unit (excluding Vehicles) that fought this phase and destroyed one or more enemy models.
• That unit can be selected to fight again, as if it were still your Fight phase.
• Melee attacks made by that unit during this second fight have the [DEVASTATING WOUNDS] ability.

FORCE DISPOSITIONS

This detachment has access to the following Force Disposition: Purge the Foe.

DETACHMENT COMPOSITION

Included: All homebrew Dark Angels (HH) roster units (Lion El'Johnson, Corswain, Marduk Sedras, both Deathwing Companion units, Dreadwing Interemptor Squad, Inner Circle Knights Cenobium, Excindio Battle-Automata, Firewing Enigmatus Cabal), and any homebrew Legiones Astartes (HH) unit from the generic Space Marines (HH) roster given the Dark Angels Trait.

Excluded: Any other Legion's Primarch or named characters. Non-Legiones-Astartes allies, per standard HH3e Legion-purity convention.

ENHANCEMENTS

RELIC OF THE ORDER — *Character model only*

Melee weapons equipped by the bearer that have the Sword of the Order trait gain the [LETHAL HITS] ability.

UNBROKEN OATH — *Character model only*

The bearer automatically passes Battle-shock tests, and the unit it is leading (if any) can re-roll failed Battle-shock tests.

HIDDEN VIGIL — *Unit only*

Once per battle, this unit can be set up in Strategic Reserves instead of on the battlefield, even if it would not normally be eligible to do so.

THE LONG MEMORY — *Character model only*

Each time the bearer destroys an enemy Character model, until the end of the battle, add 1 to the Attacks characteristic of the bearer's melee weapons (cumulative, no upper limit).

STRATAGEMS

SWORD OF THE ORDER **1CP**
Dark Angels — Battle Tactic Stratagem

When: Fight phase, just before a friendly Dark Angels Character model equipped with a melee weapon that has the Sword of the Order trait is selected to fight.

Target: That model.

Effect: Until the end of the phase, that weapon has the [LETHAL HITS] ability, but subtract 1 from its Attacks characteristic.

DUELLIST'S DISCIPLINE **1CP**
Dark Angels — Battle Tactic Stratagem

When: Fight phase, just after a friendly Dark Angels Character model's melee attack targets an enemy Character model.

Target: That attack.

Effect: You can re-roll the Hit roll and the Wound roll for that attack.

SILENT VIGIL **1CP**
Dark Angels — Strategic Ploy Stratagem

When: Your Command phase.

Target: One friendly Dark Angels unit.

Effect: Until your next Command phase, that unit has the Stealth ability.

THE ORDER STANDS **1CP**
Dark Angels — Battle Tactic Stratagem

When: End of any phase, if a friendly Dark Angels unit lost one or more models earlier this phase.

Target: That unit.

Effect: That unit automatically passes Battle-shock tests until the end of the battle round.

SECRET OF THE INNER CIRCLE **2CP**
Dark Angels — Strategic Ploy Stratagem

When: Start of your opponent's Charge phase.

Target: One friendly Dark Angels Infantry unit.

Effect: Until the end of the phase, that unit has a 4+ invulnerable save. If it already has an invulnerable save, use whichever is better.

NO OATH UNKEPT **2CP**
Dark Angels — Epic Deed Stratagem

When: Fight phase, just after a friendly Dark Angels Character model is destroyed, before it is removed from play.

Target: That model.

Effect: If that model has not already fought this phase, it can fight once, using its normal characteristics, before being removed as a casualty.

DESIGNER'S NOTE

Homebrew — HH3e (2026) Dark Angels Legion Rite of War → 11e conversion. Built from the real HH3e Rite of War data in `Dark Angels.json`, which has one baseline rite with three named pieces: Legion Tactica "The Angel of Death" (the same mental-resilience rule already carried by Lion El'Johnson, Corswain, and Marduk Sedras individually — used here as the army-wide Faction Ability), Gambit "Sword of the Order" (a Challenge-only trade of Attacks for a Critical Hit bonus on Sword-of-the-Order-trait weapons, translated directly into the Sword of the Order Stratagem), and Advanced Reaction "Vengeance of the First Legion" (a once-per-battle full combat re-fight with a bonus to Sword-of-the-Order weapons) — promoted to the Detachment Rule itself, matching how World Eaters' Lost to the Nails was built from its own Legion's flagship real mechanic. Duellist's Discipline, Silent Vigil, The Order Stands, Secret of the Inner Circle, and No Oath Unkept are original stratagems filling out the standard six; Enhancements are original, themed around the Legion's duelling and Inner Circle secrecy identity.
