The lance is meant to be lost. Riders hurl themselves at the foe at full gallop, drive their explosive-tipped lances home, then draw cavalry sabres for the wheeling slaughter that follows.

> **Designer's Note.** A distinct, older lineage from the current-BSData Attilan Rough Riders — the generic Imperial Guard Rough Riders concept predates the Attilan-specific kit, going back to 1st Edition, and represents different

> physical models (living mounts, not Attilan's own sculpts). Kept as its own datasheet specifically because it's tied to a separate set of miniatures, not because current rules lack a Rough Rider option. Regiment-agnostic by design; per-regiment flavour belongs in each Combat Patrol's own Detachment Rule. Converted from the 7th Edition-sourced homebrew Imperial Guard Rough Riders (v2). 11th-edition conversion, 2026-07-28. 11th-edition rules pass, 2026-10-10: regenerated from the NewRecruit NFLB catalogue so this card matches New Recruit exactly — official 11e weapon and wargear profiles wherever an official equivalent exists, 11e Orders and wording.
