DETACHMENT

MECHANISED STRIKE FORCE

ASTRA MILITARUM | WARHAMMER 40,000 | 11TH EDITION

"The infantryman is the Imperium's foundation; the Chimera is the wagon that brings him to where the foundation must be laid." The Mechanised Strike Force is a regiment-agnostic doctrine: any Astra Militarum force willing to commit its infantry to Chimeras can fight as one. Steel Legion's iron tide is the archetype, but Cadian shock detachments, Death Korps relief columns, and rapid-response Imperial regiments all share the same drilled rhythm — embark, advance, deliver fire, dismount, hold. Formatted to match the No Figure Left Behind Combat Patrol archive.

FACTION ABILITY

VOICE OF COMMAND

Uses the canonical Astra Militarum faction ability Voice of Command from Codex: Astra Militarum (11e). Officer models issue Orders to nearby REGIMENT units in your Command phase, per the canonical Order list.

DETACHMENT RULE

MECHANISED DOCTRINE

Detachment Points: To use this detachment you must spend 1 DP.

The line moves on tracks. The Castellan rides with his men. The auspex maps the killing ground from the gunner's cupola, not the trench.

• While a friendly Astra Militarum Infantry unit is embarked in a friendly Astra Militarum Transport, add 1 to the Objective Control characteristic of that Transport.
• Each time a friendly Astra Militarum Infantry unit disembarks from a Transport during your turn, until the end of that turn, attacks made with [HEAVY] weapons equipped by models in that unit can benefit from the [HEAVY] ability even though that unit was set up on the battlefield this turn, provided no model in that unit has moved more than 3" since it disembarked.

FORCE DISPOSITIONS

This detachment has access to the following Force Disposition: Take and Hold.

DETACHMENT COMPOSITION

Included: All canonical Astra Militarum units — Cadian, Catachan, Tempestus Scions, Ogryns, Ratlings, Sentinels, Leman Russ variants, Chimera, Hellhound, Manticore, Basilisk, Tauros, Tauros Venator, Taurox variants, and the homebrew Imperial Guard Command Squad, Squad, Heavy Weapon Squad, Special Weapon Squad and Rough Riders datasheets.

Recommended: At least one Chimera, Taurox, or other Transport in the army — the Detachment Rule does nothing without something to ride in. Most lists run 2-4 Transports.

Excluded: Knight detachments (separate force-org). Imperial Agents (cross-codex allies can be included via standard allied-detachment rules, but do not benefit from Mechanised Doctrine).

ENHANCEMENTS

TRACK COMMANDER (15 pts) — *Officer model only*

The bearer is as comfortable in a Chimera's cupola as any other Castellan is in a command tent. While the bearer's unit is embarked within a Transport, improve the Ballistic Skill characteristic of that Transport's ranged weapons by 1, and each time that Transport makes an attack that targets the closest eligible target, you can re-roll a Hit roll of 1.

VETERAN CREWMAN (20 pts) — *Officer model only*

The bearer's Chimera crew has been with him for half a campaign. While the bearer's unit is embarked within a Transport, add 1" to the Move characteristic of that Transport. In addition, once per battle round, when a saving throw made for that Transport is failed (excluding mortal wounds), you can change the result to a successful save.

MASTER VOX (25 pts) — *Officer model only*

A high-amplification vox-array tuned to the regiment's command channel. Each time the bearer issues an Order, it can issue it to an eligible unit anywhere on the battlefield. In addition, the bearer can issue 1 additional Order in your Command phase.

IRON-HARDENED HULL (15 pts) — *Officer model only*

The bearer's Chimera carries the regimental colours and the regimental memory. While the bearer's unit is embarked within a Transport, add 1 to the Toughness characteristic of that Transport, and that Transport has the Feel No Pain 5+ ability against mortal wounds.

DESIGNER'S NOTE

Homebrew — 3rd Ed lineage (Codex: Armageddon, 2000), 11e conversion. The Mechanised Strike Force generalises the Steel Legion's iconic mechanised doctrine into a doctrine any Astra Militarum regiment can adopt. It pairs naturally with the homebrew Imperial Guard squad datasheets, which slot into Chimeras and benefit from the +1 OC and Heavy-fire-on-disembark perks. Reformatted 2026-08-31 to the current 11e Detachment framework (Detachment Points, Force Dispositions) from an earlier 10e-format draft; rules content is unchanged. 11th-edition rules pass, 2026-10-10: Force Disposition set to Take and Hold (Sweep and Clear is not an 11e disposition), the Heavy clause rewritten for the 11e [HEAVY] rule (which has no moving penalty), enhancement points added, and wording aligned with the NewRecruit NFLB catalogue.
