COMBAT PATROL

TYRANID ASSAULT BROOD

TYRANIDS | WARHAMMER 40,000 | 11TH EDITION

Led by the Parasite of Mortrex, this assault brood tears through the enemy's ranks with overwhelming savagery. Genestealers burst from hiding to begin the slaughter, Biovores rain living ordnance from afar, and a wall of Tyrant Guard shields the brood's synaptic heart as it presses ever onward, feeding the endless hunger of the hive fleet.

ARMY RULES

SYNAPSE

While a Tyranids unit from your army is within 6" of one or more friendly Synapse models, that Tyranids unit is said to be within Synapse Range of those models and of your army. Each time a Tyranids unit from your army takes a Battle-shock test, if it is within Synapse Range of your army, take that test on 3D6 instead of 2D6.

SHADOW IN THE WARP

Tyranids flood the battlefield with the psychic signature of the hive fleet, an icy, alien dread that gnaws at the minds of their prey and smothers even the most stalwart courage.

Once per battle, in either player's Command phase, if one or more units from your army with this ability are on the battlefield, you can unleash the Shadow in the Warp. When you do, each enemy unit on the battlefield must take a Battle-shock test.

DETACHMENT RULE

TYRANID ASSAULT BROOD

Detachment Points: To use this detachment you must spend 1 DP.

HUNGERING ASCENDANCY

Each time a unit from this detachment is within Engagement Range of one or more enemy units at the start of the Fight phase, add 1 to the Attacks characteristic of melee weapons equipped by models in that unit.

FORCE DISPOSITIONS

This detachment has access to the following Force Disposition: Take and Hold.

ENHANCEMENTS

INDURATED CARAPACE — *Tyranid Assault Brood Parasite of Mortrex unit only*

The bearer has a 4+ invulnerable save. In addition, each time a melee attack targets the bearer, subtract 1 from the Hit roll.

BIOACID — *Tyranid Assault Brood Tyrant Guard unit only*

Once per turn, when a friendly Tyranids unit within 6" of the bearer is selected to shoot or fight, the bearer can use this ability. If it does, until the end of the phase, improve the Armour Penetration characteristic of weapons equipped by models in that friendly unit by 1.
