HOMEBREW — HH-ERA (30K)

AHZEK AHRIMAN

105 POINTS

CHIEF LIBRARIAN OF THE THOUSAND SONS

LEGIONES ASTARTES • THOUSAND SONS • TRAITOR

He sees the Rubric coming, in flashes, long before it happens — and every path he scries away from it leads somewhere worse. He keeps looking anyway.

Designer's Note. Built directly from the real HH3e digitized "Ahzek Ahriman" profile (`Thousand Sons.json`) — his Chief Librarian incarnation, long before the Rubric and the Thirteen Wolves. Real stat line: M7/WS6/BS5/S4/T4/W4/I5/A5/LD10/CL9/WP9/IN9/SAV2+/INV4+, 185pts (HH3e economy), translated to 140pts using the ~0.76 real-to-11e ratio established across this project's HQ characters. The Corvidaen Sceptre is real and canonically named (real Force(D)/Critical Hit(6+), translated to Devastating Wounds and Lethal Hits). Arch-Magister of the Corvidae (real: grants the Corvidae Prosperine Arcana plus Thaumaturgy and Divination Psychic Disciplines — the Corvidae cult specializes in foresight and prophecy) is translated as a single signature foresight-manipulation ability rather than the full discipline power lists, matching how Magnus's own Cult Arcana/Arch-Sorcerer was handled — the same simplification, scoped down to reflect Ahriman having only one Arcana rather than all five. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Librarian 70→75.
