ABILITIES

Hammerblow

Each time this model fights, it can be equipped with Hammerblow instead of Solarite Power Gauntlet: if it is, it cannot make attacks with any other weapon that phase.

Void Commander

While this model is leading a Breacher Squad unit, that unit has the [DEEP STRIKE] ability. Each time this model's unit arrives on the battlefield from Reserves, until the end of that phase, models in this unit have the [FEEL NO PAIN 5+] ability.

UNIT COMPOSITION

Designer's Note. Built directly from the real HH3e digitized "Alexis Polux" profile (`Imperial Fists.json`), 185pts real cost, translated using the standard ~0.76 named-character ratio to 140pts. Real stat line: M7/WS6/BS4/S4/T4/W3/I5/A3/LD9/CL9/WP8/IN8/SAV2+/INV4+. His default Solarite Power Gauntlet is real (real Critical Hit(6+), the 11e-native baseline threshold, no separate translation needed). Hammerblow is a real Gambit granting an alternative fixed-Strength single-swing weapon profile (real flat S10/AP2/D3, one Attack only) usable in place of his normal weapon during a Challenge — translated as a per-Fight-phase equipment swap between the two profiles. Void Commander is real, tying him to Breacher Squad Deep Strike arrivals with a temporary Feel No Pain(5+) — translated directly, since Breacher Squad already exists as a generic Legiones Astartes unit in this project's Space Marines (HH) roster. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
