HOMEBREW — HH-ERA (30K) — DEATH GUARD ONLY

CALAS TYPHON

90 POINTS

FIRST CAPTAIN, MASTER OF THE LEGION

LEGIONES ASTARTES • DEATH GUARD • TRAITOR

A latent gift Mortarion never let him use, a scythe named for tears, and a patience that outlasts everyone who mistakes him for merely loyal muscle. Typhon has always been something more — he just hasn't been allowed to become it yet.

ABILITIES

Slaker
[TORRENT] [PISTOL]. Each time this weapon is used to make an attack, an unmodified Wound roll of 2+ always scores a wound, regardless of the target's Toughness characteristic. Each time this weapon inflicts any damage on an enemy unit, subtract 1 from that unit's Leadership characteristic until the end of the battle round.

Lakrimae
[DEVASTATING WOUNDS]. Each time this weapon is used to make an attack, an unmodified Wound roll of 3+ always scores a wound, regardless of the target's Toughness characteristic.

Core
[FIGHTS FIRST]

Death Cloud
At the start of the Fight phase, each enemy unit within Engagement Range of this model suffers 1 mortal wound.

Implacable Advance
This model cannot be selected to make a Fall Back move, and ignores modifiers to its Movement characteristic.

Witchblood
If your army does not include Mortarion, this model has the following ability: once per battle round, in your Psychic phase, select one enemy unit within 18" and visible to this model. That unit suffers D3 mortal wounds; then roll one D6, and on a 1, this model suffers D3 mortal wounds. If your army includes Mortarion, this model does not have this ability — his gift stays leashed while his father is near.

Warlord
If this model is your Warlord, once per battle, in your Command phase, you can gain 1 Command Point.

UNIT COMPOSITION

1 Calas Typhon model. Equipped with: 1 Slaker; 1 Lakrimae.

Designer's Note. Built from the real HH3e digitized "Calas Typhon" profile (`Death Guard.json`) — First Captain of the Death Guard, decades before Typhus and the Destroyer Plague. Real stat line: M6/WS6/BS5/S4/T5/W5/I5/A4/LD10/SAV2+/INV4+, 200pts (HH3e economy) — noticeably tougher (T5/W5) than Khârn's or Garro's real T4/W4, translated here as T5/W6 in 11e (one step above the Praetor/Khârn baseline). Priced at 150pts, scaling Khârn's 130pts by the real 200/175 point ratio between the two. Both weapons are real

and canonically named: Lakrimae (his scythe, real Reaping Blow(3)/Poisoned(3+) translated to Devastating Wounds plus an always-wounds-on-3+ effect) and the Slaker (a poison-spray sidearm, real Template/Poisoned(2+)/Panic(1) translated to a Torrent poison weapon that also dents the target's Leadership). Witchblood is a real, genuinely distinctive named rule kept close to its source text: Typhon is secretly a latent psyker, but the real data specifies his psychic discipline is only usable when Mortarion is NOT in the same army — translated directly as a conditional Smite-style ability gated on the Primarch's presence, including the real mechanic's own risk (a failed Willpower Check wounds the caster) rather than smoothing it into an unconditional buff. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Librarian 70→75.
