Designer's Note. Built directly from the real HH3e digitized "Camba Diaz" profile (`Imperial Fists.json`), 120pts real cost, translated using the standard ~0.76 named-character ratio to 90pts. Real stat line: M7/WS6/BS5/S4/T4/W3/I5/A3/LD9/CL8/WP8/IN8/SAV2+/INV4+. His signature weapon Durenda is real (real Breaching(5+), translated to Anti-vehicle 5+). Real Gambit "The Line Unbroken" grants +2 Attacks specifically when he fights without Combat Advantage (i.e. defensively, not as the Challenge's aggressor) — translated here as a bonus that applies whenever he fights without having charged that turn, preserving the real "the one who holds, not the one who strikes first" fantasy. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
