165 POINTS

THE FORGE RECLAIMED HIM TWICE

LEGIONES ASTARTES • SALAMANDERS • LOYALIST

The sarcophagus was never meant to be opened twice. He opened it himself, both times.

ABILITIES

Forge-crafted heavy flamer
[TORRENT] — auto-hits, which is why it has no BS characteristic. This model is equipped with two of these weapons. Each time this weapon damages a unit, that unit must take a Battle-shock test.

Core
[DEADLY DEMISE D3]

Drakenscale Armour
Each time a wound is allocated to this model from an attack made by a Flamer, Melta, Plasma, or Volkite weapon, the Damage characteristic of that attack is treated as being 1.

UNIT COMPOSITION

1 Cassian Dracos Reborn model. Equipped with: 1 Paired Gravis power fist; 2 Forge-crafted heavy flamer.

Designer's Note. Built directly from the real HH3e digitized "Cassian Dracos Reborn" profile (`Salamanders.json`), 220pts real cost — the highest real cost of any single-model Dreadnought-tier unit checked in this project, edging out Mhara Gal Dreadnought's real 210pts — translated using the same ~0.76 character ratio applied to Mhara Gal, landing at 165pts. Real stat line: M6/WS5/BS5/S7/T7/W8/I3/A4/LD12/CL12/WP6/IN8/SAV2+/INV5+, Type Walker (Unique) — his real W8 is likewise the highest Wounds of any named Dreadnought checked so far, translated directly rather than reusing another unit's Wounds value. Both weapons are real and fixed (a min/max-2 constraint locks him into exactly two Forge-crafted heavy flamers alongside his signature Paired Gravis power fist): the flamers use this project's standard Template-to-Torrent rendering (real Panic(2), translated to a Battle-shock trigger); the power fist carries no real Special Rules of its own beyond its raw profile (real AM+1/SM+3, folded into a flat A5/S10 melee line). Explodes(5+) is real, translated to Deadly Demise D3, matching this project's standard rendering. Drakenscale Armour is real and translated directly — a defensive rule specifically resistant to Flame/Plasma/Melta/Volkite Damage, fitting for a Legion whose own name and heraldry are built around fire resistance. Whispers of Isstvan is real but ties into the Liber Mechanicum's Cybertheurgic Rite sub-system (a Mechanicum army-list mechanic with no 11e analogue) and is left unbuilt, matching this project's standing convention for untranslatable sub-system rules. **11e codex update (18 Oct 2026):** statline unchanged; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Dreadnought [Legends] 135→135.
