Designer's Note. Built directly from the real HH3e digitized "Raldoron" profile (`Blood Angels.json`), filed under the real Master of the Legion category, 180pts real cost, translated using the standard ~0.76 named-character ratio to 135pts. Real stat line: M7/WS7/BS5/S4/T4/W4/I5/A4/LD10/CL9/WP9/IN9/SAV2+, no invulnerable save. His signature weapon, The Encarmine Warblade, is real (real Critical Hit(6+), the 11e-native baseline; real Impact(AM), translated to a Charge-triggered Attacks bonus). Archein of Wisdom is a real, unusually clever Gambit — it grants a Focus Roll bonus in a Challenge equal to the number of successful Hit Tests the opponent scored in the previous Strike Step, rewarding him for surviving a strong attack rather than punishing it — translated here as a once-per-battle Attacks bonus scaled to how many attacks hit him that phase, capped at +3, preserving the real "turns the enemy's own accuracy against them" fantasy. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
