> **Designer's Note.** Built directly from the real HH3e digitized "Corvus Corax" profile (`Raven Guard.json`). Real stat line: M16/WS7/BS6/S6/T6/W6/I6/A6/LD12/CL10/WP10/IN10/SAV2+/INV4+, Type Paragon (Unique, Antigrav), 440pts (HH3e economy) — a real cost coincidentally identical to Jaghatai Khan's real 440pts, and his real M16 ties Sanguinius for the fastest Movement of any Primarch checked in this project. Since his real T6 sits in the standard baseline Primarch group (matching Jaghatai Khan's own group), this card reuses Jaghatai Khan's translation outright: 340pts, standard T9/W10. Wrath & Justice is his real fixed signature ranged weapon (a high-rate-of-fire real FP6 profile with a real weak AP4, translated as AP0 with real Breaching(6+) folded in as Anti-vehicle 6+, consistent with this project's convention of treating high real HH3e AP values — weaker penetration on that scale — as a flat AP0 rather than porting the raw number). His melee loadout is a genuine either/or in the real data: Talionis (his real iconic two-handed glaive, real AM 3 — flat, not a bonus, trading attack volume for punch — and real IM+4, the largest Initiative bonus of any Primarch weapon checked, translated as an unconditional Fights First; real Breaching(6+), Anti-vehicle 6+) or The Corvidine Talons (real AM+2 over his own base Attacks for a flurry profile, real Critical Hit(6+) needing no translation since it matches 11e's own baseline). The Shadowed Lord is a real, distinctively-worded Gambit — ignore Focus Roll penalties from lost Wounds, and a successful hit can end a

> Challenge early — translated as a once-per-battle Damage-reduction activation, preserving the "fights as though untouched" spirit. Sire of the Raven Guard is real; its actual text is a Force-Organisation Prime-Slots clause (unbuildable in 11e, omitted) plus a genuine first-Battle-Turn Move-Through-Cover grant for Raven Guard Infantry, translated as a first-battle-round Difficult-Terrain immunity aura. **11e codex update (18 Oct 2026):** Primarch toughness +1 and wounds ×1.6 (as GW did for Guilliman and the Lion, T9 W10 → T10 W16); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Roboute Guilliman 355→415.
