Designer's Note. Built directly from the real HH3e digitized "Crimson Paladins" profile (`Blood Angels.json`), a Heavy Assault choice, 40pts real per model, translated using the standard ~0.87 squad ratio to 35pts per model (175/350 for 5/10). Real stat line: M6/WS5/BS4/S4/T5/W2/I4/A3(Paladin)/A4(Crimson Exemplar)/LD9/CL8/WP7/IN7/SAV2+/INV4+. The Blood is Forever is real and shared across multiple Blood Angels units in the source data — a Feel No Pain(5+) that improves to Feel No Pain(4+) when badly outnumbered — translated directly, matching the Legion's real "the Blood fights hardest when the odds are worst" identity. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Sternguard Veteran Squad 100→105.
