Designer's Note. Built from the real HH3e digitized "Dark Sons of Death" profile (`White Scars.json`) — this Legion's own jump-infantry assault squad, real Type "Infantry (Antigrav)" matching the same M12 pattern seen on other Legions' assault-pattern squads. Real stat line: Dark Son M7/WS4/BS4/S4/T4/W1/I4/A1/LD8/SAV3+ (no invuln), Death's Champion (Sergeant) presumed comparable, both 20pts/model plus a 45pts unit fee (HH3e economy), 5-15 models. Priced at 110/195pts for 5/10, in line with this project's ~0.87 squad ratio. Impact(A) is real, translated using the same flat Strength-on-charge rendering established for Night Raptor/Atramentar/Lord Commander Eidolon; Deep Strike is real and translated directly. Real "Invocation of the Razing Tempest" is a genuine, distinctive cross-unit rule that extends the friendly Stormseer's Call of the Wind psychic power when targeting a unit that includes a Dark Son model — documented on the Stormseer's own card designer's note rather than duplicated here, matching this project's convention of noting a synergy once, on the granting side. The real profile's full weapon options list (power glaive/charnabal sabre for the Champion, one-in-five special weapons) was trimmed for card space to the core chainsword/bolt pistol loadout, matching the simplification already applied to other generic Legion squads. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Vanguard Veteran Squad with Jump Packs 105→110.
