ABILITIES

Faction — Sons of the Legions

This unit is a generic Legiones Astartes (Horus Heresy era) datasheet usable by any of the 18 Legions. Detachment buffs and Legion-specific stratagems apply per the Legion this unit is fielded as (Loyalist or Traitor). When fielded in a 40K list, treat as having the **Oath of Moment** faction ability if Loyalist; **Dark Pact** if Traitor.

Rad Grenades

In the Fight phase, before this unit makes its attacks, select one enemy unit within Engagement Range of it. Until the end of the turn, that enemy unit's Toughness characteristic is reduced by 1 (to a minimum of 1).

Phosphex Munitions

Each time a model in this unit makes a ranged attack with a phosphex weapon, on a Hit roll of 5+ the attack scores 1 mortal wound in addition to any normal damage. Phosphex attacks cannot be allocated to **Vehicle** models with a Toughness of 10 or higher.

Outcast

This unit cannot be your Warlord, cannot take Enhancements, and cannot be the target of friendly Faction ability effects that grant Battle-shock immunity (the Legion treats them as pariahs even in victory).

Jump Pack Assault (Assault Destroyer variant only)

If the Assault Destroyer variant was selected, this unit gains **Deep Strike** and is eligible to charge in a turn in which it arrived from Reserves.

DESIGNER'S NOTE — *Destroyer Squads are the Heresy's pariah-specialists: Legionaries deemed too radiologically and chemically contaminated for mainline duty, equipped with weapons their fellow Astartes consider dishonourable — rad grenades, phosphex, weaponised volkite. No 10e analog. HB design: standard Marine statline + a rad-grenade mechanic that reduces an enemy unit's Toughness by 1 in melee (a direct port of the HH rule), phosphex munitions for mortal-wound output, and an "Outcast" downside that*

locks them out of Warlord/Enhancement slots. Two profiles: foot (110/220 pts) and Assault Destroyer with jump packs (+25/+50 pts, +6" Move, gains Deep Strike + charge-from-reserves). Cheap mass-mortal-wound delivery with a defensive penalty that keeps them honest.
11E CODEX UPDATE (18 OCT 2026): *power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Assault Intercessor Squad 75→85.*
