Designer's Note. Built from the real HH3e digitized "Diabolist" profile (`Word Bearers.json`) — a generic, non-unique cult sorcerer HQ, this Legion's rank-and-file battle-psyker choice, distinct from the named Erebus/Kor Phaeron/Zardu Layak characters. Real stat line: M7/WS5/BS5/S4/T4/W3/I5/A4/LD7/CL8/WP10/IN8/SAV2+/INV5+, 105pts (HH3e economy), priced at 80pts using the same ~0.76 ratio applied to this project's other generic Legion caster HQs (Prosperine Sorcerer, Stormseer). Force Weapon is real (translated to Devastating Wounds, matching this project's standard Force-weapon rendering). Diabolism is a real, named signature psychic power, translated here as a single once-per-battle mortal-wound attack rather than a full discipline-power list, consistent with how this project has handled every other Legion's broader psychic-power access. The real profile's Jump Pack option was trimmed for card space, matching the simplification already applied to other generic Legion HQs. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Librarian 70→75.
