FIRST CHAPLAIN OF THE WORD BEARERS

Designer's Note. Built from the real HH3e digitized "Erebus" profile (`Word Bearers.json`) — First Chaplain of the Word Bearers, arguably the single most consequential manipulator of the entire Horus Heresy in the wider lore, though his real HH3e game stats are comparatively modest. Real stat line: M7/WS5/BS5/S4/T4/W3/I5/A3/LD10/CL10/WP9/IN7/SAV2+/INV4+, 165pts (HH3e economy), priced at 125pts using this project's ~0.76 character ratio. Crux Malifica is real and canonically named (real Phage(S), translated using the same once-per-unit Strength-debuff rendering established for Lorgar's Illuminarum and Gal Vorbak's Tainted Talons); a Plasma pistol is his real default ranged weapon. Real "Lord of the Blessed" (can join Malefic-type units) and "Harbinger of Chaos" (unlocks extra Daemonic-Manifestation detachment slots) are both army-building rules with no clean 11e analogue and are left unbuilt; real Unwavering Conviction (a Combat-Resolution-point bonus) is likewise untranslatable and omitted, matching the same treatment given to Lorgar's own copy of the rule. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Librarian 70→75.
