> **Designer's Note.** Built directly from the real HH3e digitized "Exodus" profile (`Alpha Legion.json`), an Elites choice fielded as a single named operative, 165pts real cost, translated using the standard ~0.76 character ratio to 125pts. Real stat line: M7/WS4/BS8/S4/T4/W3/I5/A2/LD9/CL10/WP7/IN7/SAV3+/INV5+, Type Infantry (Light) — real BS8 is the highest Ballistic Skill of any unit checked in this entire project, confirming this operative's real identity as the Legion's premier marksman/assassin. The Instrument is real and genuinely dual-mode: a Rapid shot profile (real FP3, AP3) for suppression, or an Execution shot profile (real R72 — trimmed to a more playable 48" for this card — real FP1/RS8/AP2, real Heavy(D), translated as a stationary Damage bonus, and real Pinning(1), translated to a Battle-shock trigger) for a single precision kill-shot. Lone Killer is real and translated directly — this operative cannot be joined by, or join, any other unit. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
