EZEKYLE ABADDON

200 POINTS

FIRST CAPTAIN OF THE SONS OF HORUS

LEGIONES ASTARTES • SONS OF HORUS • TRAITOR

Long before the Despoiler, before the Talon and the Black Legion, he was simply the First Captain — the finest sword the Warmaster owned, and the one man Horus trusted to command the Justaerin in his stead.

This model cannot be selected to make a Fall Back move, and ignores modifiers to its Movement characteristic.

Slow and Purposeful
This model can shoot with weapons that have the [HEAVY] ability without penalty even if it Advanced this turn. However, each time this model is selected to charge, it can only move up to its Movement characteristic in inches (instead of rolling 2D6).

Eternal Warrior
Each time damage is allocated to this model, if that damage exceeds 1, that damage is reduced to 1.

Warlord
If this model is your Warlord, once per battle, in your Command phase, you can gain 1 Command Point.

> **Designer's Note.** Built directly from the real HH3e digitized "Ezekyle Abaddon" profile (`Sons of Horus.json`) — his First Captain incarnation, long before the Despoiler and the Black Legion. Real stat line:

M6/WS7/BS5/S4/T5/W5/I5/A6/LD10/SAV2+/INV4+, 250pts (HH3e economy) — the most expensive named character in this Legion's roster after Horus himself. Priced at 190pts using the same ~0.76 real-to-11e ratio applied consistently across this Legion's HQ characters. Cthonian Power Claw (real Shred(5+), translated to Devastating Wounds) is his default weapon; Paragon Blade + Banestrike Combi-Bolter is a real alternate loadout, swapping raw melee power for a ranged option and the (real) Critical Hit(6+) translated to Lethal Hits. Bulky(2) is untranslatable fluff and omitted; Implacable Advance, Slow and Purposeful, Deep Strike, and Eternal Warrior(1) are all real and translated directly. Master of the Justaerin is a real, genuinely distinctive signature rule tying Abaddon directly to the Justaerin Terminator Squad built alongside him this Legion — a Deep Strike Feel No Pain buff for the unit he leads into a drop, translated faithfully rather than generalized into a flat aura. **11e codex update (18 Oct 2026):** toughness +1 (Terminator armour T6, bikes T6 like codex Outriders); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain in Terminator Armour 85→90.
