> **Designer's Note.** Built directly from the real HH3e digitized "Fafnir Rann" profile (`Imperial Fists.json`), 175pts real cost, translated using the standard ~0.76 named-character ratio to 135pts. Real stat line: M7/WS6/BS4/S4/T4/W4/I5/A4/LD9/CL8/WP8/IN8/SAV2+/INV4+. His signature weapon The Headsman and the Hunter is real (real Breaching(4+), translated to Anti-vehicle 4+). Shield Master is real — normally carrying a shield imposes a Focus Roll penalty in a Challenge, and this rule removes it for him — translated as an unconditional guard against his invulnerable save being worsened, preserving the "his shield never costs him anything" fantasy. Executioner's Tax is a real Gambit: he can trade a worse Focus Roll for his weapon gaining Critical Hit(6+) for the following Strike Step (a threshold his weapon does not otherwise have) — translated as a once-per-battle activation granting Devastating Wounds at the cost of a Hit-roll penalty, preserving the real risk/reward trade. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
