Designer's Note. Built from the real HH3e digitized "Falcon's Claws" profile (`White Scars.json`) — a lightly-armoured Outflanking scout squad, real Type "Infantry (Light)" throughout, matching this Legion's raiding, hit-and-run identity. Real stat line: Falcon's Claw Champion (Sergeant) M7/WS4/BS4/S4/T4/W1/I4/A3/LD8/SAV4+ (no invuln), Falcon's Claw the same but LD7/A2, both 18pts/model plus a 38pts unit fee (HH3e economy), 5-10 models. Priced at 95/175pts for 5/10, using this project's established ~0.87 squad ratio. Real Outflank is translated to the 11e core [INFILTRATORS] ability, matching this project's standard rendering for a real any-table-edge deployment rule; real Precision(6+) translates directly to the 11e core [PRECISION] ability. The real profile's full weapon options list (a paired-lightning-claws upgrade, plus a wide list of pistol/melee substitutions for the Champion) was trimmed for card space to the core chainsword/bolt pistol loadout plus the signature Lightning Claws upgrade, matching the simplification already applied to other generic Legion squads. Real Smokescreen (appearing twice in the source infoLinks with no base invulnerable save on the profile) suggests a situational defensive Reaction rather than a baked-in save, and is left unbuilt. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Assault Intercessor Squad 75→85.
