Designer's Note. Built directly from the real HH3e digitized "Ferrus Manus" profile (`Iron Hands.json`). Real stat line: M8/WS7/BS6/S7/T7/W6/I6/A6/LD12/CL10/WP10/IN10/SAV2+/INV4+, 465pts (HH3e economy) — a real cost coincidentally identical to Roboute Guilliman's real 465pts, but unlike Guilliman his real T7 sits in the elevated-Toughness Primarch group (alongside Perturabo and Mortarion), so this card uses that group's ~0.776 ratio and stat bump: 360pts, T10/W11. Forgebreaker is his real iconic hammer (real Critical Hit(5+), using the established elevated-Critical-Hit rendering). The Medusan Carapace is real and is a built-in three-mode weapons system integrated into his armour — Alpha-12 (plasma, real Breaching(4+)), Epsilon-415 (graviton, real Shock/Pinning), and Phi-71 (flame Template, real Panic(2)) — the Alpha-12 plasma mode is used here as the card's single ranged profile for simplicity, with the other two modes trimmed for card brevity, matching how other multi-mode weapon systems have been handled this session. Tempered by War is a real Gambit setting his Toughness to a flat 8 for a Strike Step — translated as a once-per-battle +1 Toughness activation, preserving the real proportional bump. Sire of the Iron Hands is real; its actual text is a Force-Organisation Prime-Slots clause (unbuildable in 11e, omitted) plus a genuine first-Battle-Turn Feel No Pain(6+) grant for Iron Hands Infantry, translated directly as a first-battle-round aura. **11e codex update (18 Oct 2026):** Primarch toughness +1 and wounds ×1.6 (as GW did for Guilliman

> and the Lion, T9 W10 → T10 W16); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Roboute Guilliman 355→415.
