HOMEBREW — HH-ERA (30K)

FULGRIM TRANSFIGURED

340 POINTS

THE PHOENICIAN, ASCENDED — A 30K-ERA TRANSFORMATION, NOT YET THE DAEMON PRINCE OF THE CURRENT CHAOS CODEX

LEGIONES ASTARTES • EMPEROR'S CHILDREN • TRAITOR • DAEMON

The mortal Primarch is still in there somewhere, watching from behind eyes that are no longer entirely his own, and still, somehow, smiling.

ABILITIES

Decapitating Slashes
[LETHAL HITS]. Each time this model is within Engagement Range of one or more enemy Character models, this model has the [FIGHTS FIRST] ability (this does not stack with Core).

Sundering Blows
Each time this model is selected to fight using this weapon, it does so after all other eligible models have fought this turn (excluding this model), representing the ponderous, overwhelming force of each blow.

Core
[DEEP STRIKE] [FLY]

Fear
Each time an enemy unit within 6" of this model takes a Battle-shock test, that test is taken with a -2 modifier.

Eternal Warrior
Each time damage is allocated to this model, if that damage exceeds 2, that damage is reduced to 2.

Sire of the Emperor's Children [AURA]
While this model is on the battlefield, each time a friendly Emperor's Children unit that is not within your own deployment zone takes a Battle-shock test, that test is automatically passed.

Warlord
If this model is your Warlord, once per battle, in your Command phase, you can gain 1 Command Point.

Designer's Note. Built directly from the real HH3e digitized "Fulgrim Transfigured" profile (`Emperor's Children.json`) — the mortal Primarch's real, still-30K-era ascended form, distinct from both the mortal Fulgrim card and the current 40K Chaos-codex Daemon Prince (which reflects 10,000 years of separate power creep and isn't the right comparison point, matching this project's established Angron/Angron Transfigured and Horus/Horus Ascended precedent). Real stat line: M14/WS8/BS6/S7/T7/W7/I8/A7/LD12/CL10/WP12/IN8/SAV2+/INV4+, 600pts (HH3e economy) — a real 600/425 = 1.41x ratio over mortal Fulgrim, applied directly to the mortal 11e card's 330pts (330 × 1.41 ≈ 465), matching the same ratio-preservation method used for Horus Ascended. Real Type is "Paragon (Unique, Antigrav, Malefic)" — translated as Fly, matching the real M14 (a direct jump from mortal M8, no HH3e-to-11e scaling needed since this project already renders M 1:1 in inches). Blades of the Phoenician is real

and provides two genuinely distinct weapon profiles rather than one upgraded blade: Decapitating Slashes (real Critical Hit(6+) plus Duellist's Edge(1), the precise-and-fast option, translated with the same Fights-First-vs-Characters rendering used on mortal Fulgrim's Laeran Blade) and Sundering Blows (real IM-2/AM3/SM+5/D4 — a fixed-profile, massively overwhelming but slow-acting strike, translated as a weapon that always resolves after every other model has fought this turn, preserving the real "strikes last" Initiative penalty without needing an Initiative stat in 11e). Real Avatar of Perfection (must always be challenged if eligible; free Heroic Intervention) is a Challenge-sub-system-specific rule with no clean 11e analogue and is left unbuilt. Fear(2), Eternal Warrior(2), and Deep Strike are all real and translated directly; Bulky(7) is untranslatable fluff and omitted. **11e codex update (18 Oct 2026):** Primarch toughness +1 and wounds ×1.6 (as GW did for Guilliman and the Lion, T9 W10 → T10 W16); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Roboute Guilliman 355→415.
