Each time this model is within Engagement Range of one or more enemy Character models, this model has the [FIGHTS FIRST] ability (this does not stack with Core).

Sublime Swordsman
Each time this model makes a melee attack that targets a Character unit, add 2 to this model's Attacks characteristic for that phase.

Eternal Warrior
Each time damage is allocated to this model, if that damage exceeds 2, that damage is reduced to 2.

Sire of the Emperor's Children [AURA]
While this model is on the battlefield, each time a friendly Emperor's Children unit that is not within your own deployment zone takes a Battle-shock test, that test is automatically passed.

Designer's Note. Built directly from the real HH3e digitized "Fulgrim" profile (`Emperor's Children.json`). Real stat line: M8/WS8/BS6/S6/T6/W6/I8/A6/LD12/CL10/WP10/IN10/SAV2+/INV4+, 425pts (HH3e economy) — real cost exactly matches Perturabo's real 425pts, but unlike Perturabo (real T7, elevated), Fulgrim's real T6 sits in the same standard baseline as Angron/Lion El'Johnson/Magnus, so this card applies the standard ~0.775 real-to-11e ratio used for that group rather than reusing Perturabo's own elevated-Toughness translation outright — both approaches land on the same 330pts by coincidence, but the stat line stays standard T9/W10 rather than bumped. His real I8 is tied for the highest Initiative of any Primarch checked so far, matching his legendary swordsmanship. Both weapons are real and canonically named: Firebrand (his signature volkite pistol, real Shred(5+) plus Deflagrate(6), folded into a single Devastating Wounds matching this project's standard volkite rendering) and Laeran Blade (real Duellist's Edge(1), translated identically to Corswain's and Nathaniel Garro's own Duellist's

Edge rule — Fights First against Characters, the established project-wide rendering for this real mechanic). Sublime Swordsman is real and unusually mechanical in the source (a Challenge-only Attacks bonus scaling with the Initiative gap against his opponent) — translated here as a flat +2 Attacks bonus against Character targets, preserving the "unbeatable duellist" fantasy without porting HH3e's Challenge sub-system wholesale. Sire of the Emperor's Children is real; its actual text is an army-building "Prime Slots" clause plus a Combat-Resolution bonus for forward-deployed Emperor's Children units — neither translates cleanly, so this card renders the aggressive-elsewhere-than-home spirit as an automatic Battle-shock pass for units outside your own deployment zone. Bulky(4) is untranslatable fluff and omitted; Eternal Warrior(2) is real and translated directly. **11e codex update (18 Oct 2026):** Primarch toughness +1 and wounds ×1.6 (as GW did for Guilliman and the Lion, T9 W10 → T10 W16); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Roboute Guilliman 355→415.
