Designer's Note. Built directly from the real HH3e digitized "Fulmentarus Terminator Squad" profile (`Ultramarines.json`), an Elites choice, 70pts real per model, translated using the standard ~0.87 squad ratio to 61pts per model (305/610 for 5/10). Real stat line: M6/WS4/BS4/S4/T5/W2/I4/A2/LD8/CL8/WP7/IN7/SAV2+/INV4+ — this Legion's own Terminator-tier squad. No standalone real Special Rule beyond wargear was found attached to this profile in the source data, so the card presents the squad's standard Combi-bolter and Power fist loadout, matching how other Legions' baseline Terminator squads have been trimmed for card brevity. **11e codex update (18 Oct 2026):** toughness +1 (Terminator armour T6, bikes T6 like codex Outriders); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Terminator Squad 160→190.
