> **Designer's Note.** Built directly from the real HH3e digitized "Geigor Fell-Hand" profile (`Space Wolves.json`), 105pts real cost, translated using the standard ~0.76 named-character ratio to 80pts. Real stat line: M7/WS5/BS5/S4/T4/W3/I5/A4/LD10/CL8/WP9/IN8/SAV2+/INV5+, Type Infantry (Unique, Command). His signature weapon The Fell-hand is real, with real Breaching(4+) (translated to Anti-vehicle 4+) and real Shred(5+) (translated to a Wound re-roll). Officer of the Line(2) is a real Special Rule but is an unbuildable army-composition rule (it grants extra Auxiliary Detachment slots when filling a Command Slot) and is omitted here as untranslatable fluff, consistent with how similar Force-Organisation-only rules have been handled for every other Legion this session. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
