Designer's Note. Built directly from the real HH3e digitized "Gorgon Terminator Squad" profile (`Iron Hands.json`), an Elites choice, 60pts real per model, translated using the standard ~0.87 squad ratio to 52pts per model (260/520 for 5/10). Real stat line: M7/WS4/BS4/S4/T5/W2/I4/A3(Terminator)/A4(Gorgon Hammerbearer sergeant)/LD8/CL8/WP9/IN8/SAV2+/INV5+ — this Legion's second, distinct Terminator-tier squad alongside the Morlocks, named for Ferrus Manus's own title "The Gorgon." No standalone real Special Rule beyond wargear was found attached to this profile in the source data, so the card presents the squad's Combi-bolter and Thunder hammer loadout, matching the real Hammerbearer naming. **11e codex update (18 Oct 2026):** toughness +1 (Terminator armour T6, bikes T6 like codex Outriders); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Terminator Squad 160→190.
