Designer's Note. Built directly from the real HH3e digitized "Huscarl Terminator Retinue" profile (`Imperial Fists.json`), an Elites choice, 50pts real per model, translated using the standard ~0.87 squad ratio to 44pts per model (220/440 for 5/10). Real stat line: M6/WS5/BS4/S4/T5/W2/I4/A3/LD8/CL8/WP7/IN7/SAV2+/INV4+, Type Infantry (Heavy) — a real Terminator-armoured squad built around the Vigil pattern storm shield (real 4+ invulnerable save, real Shield Trait, both folded directly into the profile) rather than a Terminator combi-weapon loadout. Shieldwall! is a real Advanced Reaction — a majority-Shield-Trait unit can spend a Reaction Point to gain +1 Toughness for the phase when shot at or charged — translated directly as a once-per-battle activation on the same trigger. **11e codex update (18 Oct 2026):** toughness +1 (Terminator armour T6, bikes T6 like codex Outriders); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Terminator Squad 160→190.
