Designer's Note. Built from the real HH3e digitized "Inductii" profile (`Blood Angels.json`) — the same cheap horde-tier recruit archetype seen on ten prior Legions' rosters, real stat line structurally identical across all of them (M7/WS4/BS4/S4/T4/W1/A2/LD7/SAV3+, no invulnerable save). Priced identically at 90/170pts for 10/20, matching every other Legion's Inductii Squad. Eaters of the Dead is real and is what sets this Legion's recruits apart from the others: the real rule lets a unit that wins a Combat force nearby enemy units not even part of that fight to check Leadership or become Routed ("The Thirst") — translated here as a Battle-shock trigger on nearby enemy units after this unit finishes off an enemy in melee, preserving the real "the bloodlust spreads fear even to those who didn't see it" fantasy. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Intercessor Squad 80→85.
