> **Designer's Note.** Built from the real HH3e digitized "Inductii" profile (`Iron Hands.json`) — the same cheap horde-tier recruit archetype seen on twelve prior Legions' rosters, real stat line structurally identical across all of them (M7/WS4/BS4/S4/T4/W1/A2/LD7/SAV3+, no invulnerable save). Priced identically at 90/170pts for 10/20, matching every other Legion's Inductii Squad. Forbidden Augmentations is real and is what sets this Legion's recruits apart from the others: the real rule improves their Recovery Test target number to 5+ when the Medic! Advanced Reaction is used on them — translated here as a direct return-to-the-unit save on a 5+, preserving the real "unsanctioned cybernetics keep them fighting" fantasy fitting for a Legion whose entire doctrine is "the flesh is weak." **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Intercessor Squad 80→85.
