Designer's Note. Built from the real HH3e digitized "Inductii" profile (`Word Bearers.json`) — the same cheap horde-tier recruit archetype seen on the Sons of Horus, Thousand Sons, Iron Warriors, Night Lords, Emperor's Children, and White Scars rosters, real stat line structurally identical across all seven Legions (M7/WS4/BS4/S4/T4/W1/A2/LD7/SAV3+, no invulnerable save). Priced identically at 90/170pts for 10/20. Empty Vessels is real and genuinely dark even by this Legion's standards — the source describes the unit suffering D3 automatic unsaveable wounds the first time it scores Victory Points from a real Vanguard(X) trigger, after which every surviving model gains the Malefic Sub-Type and Feel No Pain(6+) for the rest of the battle — translated here as a voluntary once-per-battle activation with the same "pay blood now, gain resilience after" structure, dropping the real Vanguard-VP trigger condition since 11e has no equivalent scoring mechanic to hook it to. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Intercessor Squad 80→85.
