> **Designer's Note.** Built directly from the real HH3e digitized "Iron Father" profile (`Iron Hands.json`), 175pts real cost, translated using the standard ~0.76 named-character ratio to 135pts. Real stat line: M6/WS6/BS5/S4/T5/W5/I5/A5/LD10/CL9/WP9/IN10/SAV2+/INV4+, real Type Infantry (Command, Heavy) — a generic non-unique senior commander/Techmarine-hybrid HQ, matching the same "budget HQ" archetype already established for Warsmith (Iron Warriors), Prosperine Sorcerer (Thousand Sons), and Stormseer (White Scars). The real source data attaches an extensive customisable weapon list (multiple combi-weapon and melee options); a representative Combi-bolter and Power fist loadout is used here for card simplicity, matching how Warsmith's own equally extensive real wargear list was trimmed. **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
