Eternal Warrior
Each time damage is allocated to this model, if that damage exceeds 2, that damage is reduced to 2.

Designer's Note. Built directly from the real HH3e digitized "Jaghatai Khan" profile (`White Scars.json`). Real stat line: M8/WS7/BS6/S6/T6/W6/I7/A7/LD12/CL10/WP10/IN10/SAV2+/INV4+, 440pts (HH3e economy) — the highest real point cost of any Primarch cross-checked in this project so far, driven by his real WS7/BS6/A7 (all a full point above the Angron/Lion/Magnus baseline) despite sitting in the same standard T6/W6 group as that trio, not the elevated-Toughness group (Perturabo/Mortarion). Priced at 340pts using the same ~0.775 real-to-11e ratio applied to that baseline group, standard T9/W10 stat line. Both weapons are real and canonically named: Storm's Voice (his signature bolt weapon, real Deflagrate(6) plus Breaching(5+), translated to Devastating Wounds plus Anti-vehicle 5+) and The White Tiger Dao (his iconic sabre, real IM+2 — the single largest flat Initiative bonus found on any weapon checked so far — translated as an unconditional Fights First rather than the usual charge- or Character-conditional rendering, since the real bonus applies in every fight; real Duellist's Edge(2), double the

value seen on every other Duellist's-Edge weapon in this project, translated as an added Lethal Hits against Characters on top of the unconditional Fights First, reflecting the doubled value). Death by a Thousand Cuts is a real, distinctively worded Gambit — a Strength-reduction debuff that only applies once an opponent's Wounds have already dropped below their starting value — translated here as an immediate Strength debuff on any Character he damages in melee, preserving the "wears down a duelling opponent" fantasy without requiring 11e to track a model's Wounds-below-starting state. Sire of the White Scars is real; its actual text is a Fast(2) Movement bonus for Infantry/Paragon White Scars models restricted to the first Battle Turn, plus an unbuildable army-building "Recon Slots must be Land Raider Explorator" clause — the Movement bonus is translated directly as a first-battle-round aura, the army-building clause is left unbuilt. Bulky(4) is untranslatable fluff and omitted; Eternal Warrior(2) is real and translated directly. **11e codex update (18 Oct 2026):** Primarch toughness +1 and wounds ×1.6 (as GW did for Guilliman and the Lion, T9 W10 → T10 W16); Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Roboute Guilliman 355→415.
