Designer's Note. Built directly from the real HH3e digitized "Kaedes Nex" profile (`Raven Guard.json`), a Command-slot named character, 165pts real cost, translated using the standard ~0.76 character ratio to 125pts. Real stat line: M8/WS5/BS6/S4/T4/W3/I5/A3/LD9/CL8/WP8/IN8/SAV3+/INV5+, Type Infantry (Unique, Specialist) — a real W3 that's unusually tough for a non-Terminator character in this project. The Fulcrum Hand Cannons are real and genuinely dual-mode, functioning as both his ranged and melee weapon: the ranged profile (real FP5, weak real AP4 translated to AP0, real Breaching(6+) folded in as Anti-vehicle 6+, real Stun(0) translated to a Battle-shock trigger) and the melee profile (real AM+1/SM6, overriding his own base Strength, real Shred(5+) translated to a Wound re-roll). The Blood Crow is real and translated directly — his real rule guarantees full Ballistic Skill regardless of circumstance and partially bypasses enemy Shrouded (stealth) Damage Mitigation, translated as immunity to Hit-roll penalties plus an ability to ignore the [STEALTH] ability on his targets, the closest 11e analogue to "always finds his mark." **11e codex update (18 Oct 2026):** power armour T5 like the codex Intercessors and the Chaos Legionaries; Astartes bolt weapons S5 AP-1 (pistols [CLOSE-QUARTERS]) and codex-named weapons on the codex profile; points scaled with Captain 80→90.
